

- Protect your Dryads/Minoboars: If your opponent's Flag is surrounded by Spring Magic or Winter Magic pieces, you'll need a Dryad/Minoboar to open a pathway to the Flag.
- Scouts: Place some of your Scouts (pieces ranked 2) in the first two rows, and use them to reveal enemy pieces that are moving towards you. Keep some Scouts safe, then use them later in the game to capture your opponent's Flag.
- High-ranking Pieces: Place some high-ranking pieces in the front row, to capture Scouts and other low-ranking pieces.
- Do not move your highest-ranking pieces into unknown enemy territory. You don't want to lose them to a Spring Magic or Winter Magic piece.
- If you know that you own the highest-ranking piece on the board, you also know that you can capture any piece that moves! Try to keep track of which pieces move during the game, and be wary of those that don't; those pieces are probably the Spring Magic or Winter Magic pieces and the Flag.
- Spy strategy: Try to keep your Spy near your 9-ranked piece. If the enemy 10-ranked piece is nearby, you might be able to lure it over to capture your 9-ranked piece, then attack with your Spy to capture it!

HOW TO WIN

The first player to capture his/her opponent's Flag wins the game. If all of your moveable pieces have been captured and you cannot move or attack on your turn, you must surrender and declare your opponent the winner.

GAME 2: STRATEGO® - THE LION, THE WITCH & THE WARDROBE EDITION WITH SPECIAL POWERS

The Special Powers version of the game begins by placing all characters with a green background out of play (Aslan, Susan, Lucy, Mr. Tumnus, Rumblebuffin and the 5 Dryads). *These pieces are "reinforcements" and will come into play later on in the game.*

SPECIAL GAME 2 SETUP

The blue player sets up the Blue army pieces according to the usual Classic Stratego rules. However, the red player should place the Red army pieces in the first three rows (meaning the rows closest to the Stratego logo) of the gameboard.

This version of the game plays similar to classic Stratego with a few added twists. Some pieces now have Special Powers, which adds a new level of strategy to the game. The characters and their Special Powers are shown on each end of the gameboard, near the logo, and are explained on the separate Special Powers Reference Sheet. To help you remember what your army's

Special Powers are, cut the Reference Sheet in half, along the dotted lines. Each player takes the appropriate side for their army, and refers to the sheet during gameplay.

FOLLOW THESE GUIDELINES FOR USING SPECIAL POWERS:

- Pieces with Special Powers may either make a standard move, or use ONE of their Special Powers.
- Always reveal a piece to your opponent before using its Special Power.

REINFORCEMENTS

Reinforcements (pieces with a green background) are only allowed into play after the Red player has captured 7 Blue army pieces. After 7 Blue army pieces have been captured by the Red army, on the Red player's next turn, he or she may add the reinforcements into the game. All of the reinforcements must be added in at once and placed on any unoccupied space in the first four rows (meaning the rows closest to the Stratego logo) on the Red player's side of the gameboard (see Figure 2). Then continue your turn as usual.

Note: You may want to place the captured Blue army pieces into the notches numbered 1 through 7 in the display tray. Reinforcements may enter the game on the Red player's next turn once all 7 notches are full.

HOW TO WIN

In the Special Powers version of the game the Red army wins by capturing the Blue army's Flag. And, there are two ways the Blue army may win. They are:

1. The first player to capture his/her opponent's Flag wins the game. If all of your moveable pieces have been captured and you cannot move or attack on your turn, you must surrender and declare your opponent the winner.
2. If all four of the children pieces (Peter, Susan, Lucy and Edmund) are either captured or enchanted by Turkish Delight, or "turned to stone," then the Blue army wins.

For example: Let's say Peter is Turned to Stone, while Susan and Edmund are captured, and on his next turn, the Blue army Enchants Lucy; the game is now over and the Blue army wins!

STORING YOUR GAME

Done playing for now? Be sure to keep these rules and the Special Powers Reference Sheets together with the game. For easy storage, fold the gameboard and place it under the cardboard platform. Then fit each piece into a notch in the platform, as shown in Figure 4.

WALT DISNEY PICTURES • WALDEN MEDIA
-THE CHRONICLES OF-
NARNIA
THE LION, THE WITCH AND THE WARDROBE

FOR 2 PLAYERS/AGES 8+

CONTENTS

- Gameboard • 40 Red Pieces • 40 Blue Pieces • Display Tray • Label Sheet
- Special Powers Reference Sheet

OBJECT

Capture your opponent's Flag before he/she captures yours.

The ultimate battle is raging . . . On one side, the White Witch gathers her evil army and will fight to keep Narnia locked in a world of perpetual winter. And as legend has it, anyone who crosses her risks being turned to stone. On the other side, a young human named Peter and his three siblings lead a much smaller army, with the hopes of restoring peace to the magical world and ridding Narnia of the White Witch... forever. While the battle intensifies, the great and mystical lion, Aslan, is approaching with reinforcements for the good army! Will he arrive in time to save Narnia from the White Witch's eternal spell?

THE FIRST TIME YOU PLAY

Remove the game parts from their wrapping and discard the waste. Then, following the directions on the label sheet, apply the appropriate label to each playing piece, (see Figure 1).

FIGURE 1

HOW TO PLAY

There are two ways to play this Special Edition Stratego Game. In Game 1, play by classic Stratego rules and race to capture your opponent's Flag. In Game 2, Special Powers come into play and some of your army pieces gain additional abilities above and beyond their traditional powers. Plus, the Red army will have the

chance to add Reinforcements to help them in battle, while the Blue army also has an additional way to win & defeat the Red army!

GAME 1: CLASSIC STRATEGO – THE LION, THE WITCH & THE WARDROBE EDITION

SETUP

- The red pieces represent the good army – (Peter & Aslan’s army) and the blue pieces represent the evil White Witch’s army. Hide a red piece in one hand and a blue piece in the other. Your opponent chooses a hand and takes the color army of the piece in that hand. The other army is yours.
- Place the gameboard on a level surface between you and your opponent, with the STRATEGO logo facing each of you. Make sure the pictures on the end of the gameboard match the pieces in your army. Note: Ignore the “Special Powers” references to the characters on the gameboard; Special Powers are used only in game 2.
- Place each of your pieces on a gameboard square in the first four rows in front of you (see Figure 2). Make sure the labeled side faces you, and is hidden from your opponent. Your opponent sets up his/her pieces the same way.

FIGURE 2

Placing your pieces strategically is an important part of the game. After you’ve played a few times you will start to develop your own strategy. For now, take a look at the rules for moving and attacking, and read the STRATEGY HINTS on page 5. They’ll help guide your decisions.

ON YOUR TURN

You and your opponent alternate turns. The player controlling the Blue army goes first.

On each of your turns, you must do one of the following:

- Move one of your pieces; or
- Attack one of your opponent’s pieces.

In a case where you cannot move or attack, the game is over and your opponent wins.

RULES FOR MOVEMENT

The only pieces that cannot move are your Flag and Spring Magic (Red army) or Winter Magic (Blue army) pieces. Move your other pieces according to the rules below.

- Move only one piece on a turn.
- Move your pieces one square at a time to an open adjacent square (a square next to it). Pieces may move forward, backward or sideways, but not diagonally. Exception: See SPECIAL SCOUT MOVEMENT PRIVILEGE, below.
- You cannot jump over other pieces, or move a piece onto an occupied square (unless attacking; see RULES FOR ATTACK, below.)
- You cannot jump over or move onto the BOULDER spaces (see Figure 2).
- You cannot move a piece back and forth, between the same two squares, on three consecutive turns.

SPECIAL SCOUT MOVEMENT PRIVILEGE

Wolves and Leopards (pieces ranked 2) have special movement rules. They may move any number of open squares forward, backward, or sideways in one direction. They cannot move diagonally, nor can they pass over or move onto the BOULDER spaces. Before moving Wolves or Leopards more than one square, you must first reveal your piece to your opponent. (You may wish to move them only one square at a time, to confuse your opponent.)

RULES FOR ATTACK

The only pieces that cannot stage an attack are your Spring Magic or Winter Magic pieces and your Flag. Attack rules are as follows:

1. **ATTACK POSITION:** When a red and a blue piece occupy adjacent spaces (back-to-back, side-to-side, or face-to-face), they are in *Attack Position* (see Figure 3).

2. **HOW TO ATTACK:** Take your attacking piece and lightly tap your opponent’s piece. Reveal your attacking piece; your opponent then reveals his/her defending piece. The piece with the lower rank is captured and removed from the gameboard. If the pieces are of equal rank, both are captured and removed from the gameboard. (See CAPTURED PIECES, below.) Note: Pieces not ranked by number have special rules; see SPIES and SPRING/WINTER MAGIC, on page 5.
3. If the attacking piece wins, it moves onto the square formerly occupied by the defending piece.
4. If the defending piece wins, it stays on its square.
5. Attacking is always optional.

FIGURE 3

CAPTURED PIECES: Any piece that is captured is immediately removed from the gameboard. Players can either place captured pieces near the gameboard, or they can fit them into the notches provided in the cardboard platform (shown in the STORING YOUR GAME section on page 8). Before the game begins, both players should agree on how captured pieces will be treated. The options are as follows:

OPEN PLAY: New players may want to place all captured pieces where both players can see them. This will help you keep track of which pieces are still in play.

PRISONER PLAY: The player who captures a piece, takes it and keeps it secret from the other player.

SECRET PLAY: The player whose piece was captured, takes it and keeps it secret from the capturing player.

STEALTH PLAY: ALL captured pieces are kept facedown, hidden from BOTH players. This forces both players to try to keep track of all captured pieces.

SPECIAL ATTACK/DEFENSE RULES

Some pieces have special attack or defense rules. Using these pieces strategically can mean the difference between victory and defeat!

SPIES: The pieces ranked S are the Spies. A Spy has no defensive power, so it is captured by any piece that attacks it. Likewise, it is captured by any piece that it attacks, with a few exceptions:

- 1) A Spy may capture a 10-ranked piece.
- 2) A Spy may capture another Spy.
- 3) A Spy may capture your opponent’s Flag.

Keep in mind if you attack your opponent’s Spy with your Spy, both pieces are still removed from play.

SPRING/WINTER MAGIC: If Spring Magic or Winter Magic pieces are attacked, the attacking piece is captured. Exception: see SPECIAL DRYAD/MINOBOAR PRIVILEGE, below.

SPECIAL DRYAD/MINOBOAR ATTACK PRIVILEGE: Dryads and Minoboars (pieces ranked 3) are the only pieces that can capture a Spring Magic or Winter Magic piece. When a Dryad or Minoboar attacks an opposing Spring Magic or Winter Magic piece, it is disarmed and the piece is captured. The attacking piece then moves onto the square that was occupied by the Spring Magic or Winter Magic piece.

SPECIAL SCOUT ATTACK PRIVILEGE: This privilege applies only to Wolves and Leopards (pieces ranked 2). They can move any number of open squares forward, backward, or sideways. A Scout using this special movement may end its move on a square occupied by an opponent’s piece, then immediately attack it.

STRATEGY HINTS

• **Spring Magic, Winter Magic and Flag placement:** When setting up your pieces, place your Flag somewhere in the back row, and place your Spring Magic or Winter Magic pieces around it for protection. Another strategy is to place Spring Magic or Winter Magic pieces in the back corners as decoys, and hide your Flag in the middle of the back row with a high-ranking piece near it, for protection. *Important:* It’s not usually a good idea to place Flag and Spring Magic or Winter Magic pieces in the front row, or in any other place where they can block your pieces.
