

# attach 'n go

## stroller play center

90

Dear Mom or Dad,

Playskool has shipped this toy unassembled in an effort to minimize the price you pay. Complete assembly plus the larger package required would have increased the cost of the toy.

We asked many parents if they prefer to have the toy shipped unassembled at a lower cost. A vast majority said "Yes." We hope you agree with them.

Each of our toys is carefully inspected during packaging. However, sometimes a part may be missing. Any missing parts will be supplied to you without charge. If you have any missing parts or problems with the assembly, please write our Customer Service Department, PLAYSKOOL, INC., 4501 W. Augusta Boulevard, Chicago, Ill. 60651 and indicate the name of the toy and the missing part.

Just follow these simple instructions to assemble the toy.

THANK YOU FOR BUYING A PLAYSKOOL TOY

- ATTACH 'N GO FITS MOST STROLLERS 10 $\frac{3}{4}$ " TO 17" WIDE.
- ATTACH 'N GO IS A TOY. IT DOES NOT REPLACE THE STROLLER SAFETY BELT.
- CAUTION: DO NOT USE IN BABY'S CRIB.

### CONTENTS:

- 1 Male Pivot Bar
- 1 Female Pivot Bar with "clicking" animal
- 2 Inside Clamps
- 2 Outside Clamps
- 2 Knobs

- 2 Hearts
- 2 Stars
- 1 Bear
- 1 "Jingle Bell" Wheel
- 1 "Jingle Bell" Wheel Label

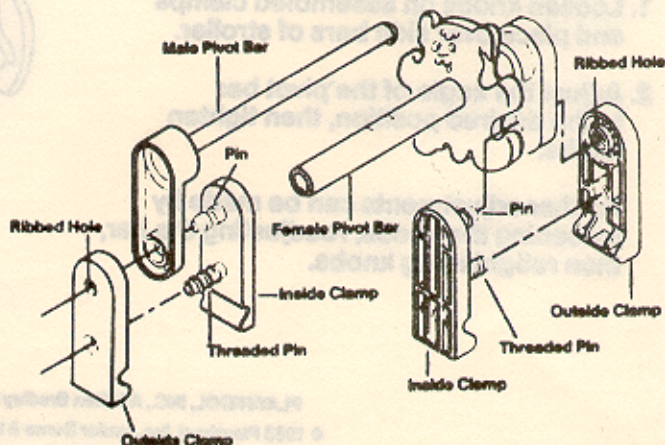

CAREFULLY READ INSTRUCTIONS AND CHECK DIAGRAMS BEFORE ASSEMBLING.

### HOW TO ASSEMBLE: (No tools required)

1. Attach inside and outside clamps to male and female pivot bars as follows:

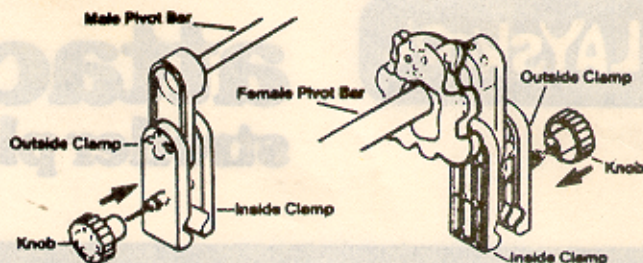

- Slide the inside clamp pin through hole in pivot bar.
- Attach outside clamp to inside clamp by sliding the ribbed hole over the pin. Snap into place.

(Note: Once snapped into place, these clamps cannot be separated.)

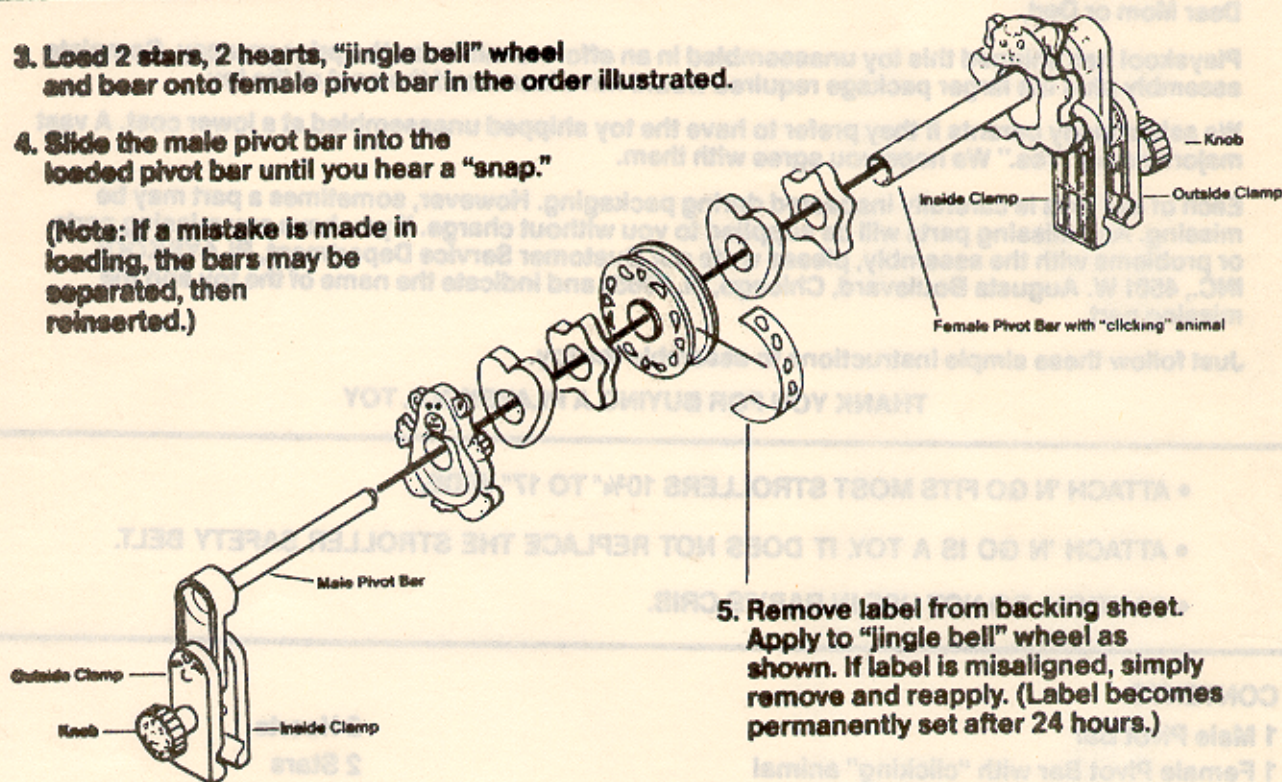

- 2. Screw a knob onto each threaded pin as shown.**

- 3. Load 2 stars, 2 hearts, "jingle bell" wheel and bear onto female pivot bar in the order illustrated.**

- 4. Slide the male pivot bar into the loaded pivot bar until you hear a "snap."**

(Note: If a mistake is made in loading, the bars may be separated, then reinserted.)

- 5. Remove label from backing sheet. Apply to "jingle bell" wheel as shown. If label is misaligned, simply remove and reapply. (Label becomes permanently set after 24 hours.)**

**ATTACH 'N GO IS NOW READY TO ATTACH TO STROLLER.**

#### HOW TO ATTACH TO STROLLER:

- 1. Loosen knobs on assembled clamps and place over side bars of stroller.**
- 2. Adjust the angle of the pivot bar to the desired position, then tighten knobs.**

Further adjustments can be made by loosening the knobs, readjusting the bar, then retightening knobs.
