

## RULES FOR PLAYING DONKEY PARTY GAME

Cut along the dotted line and remove the strip containing blind-fold and tails. Cut out blindfold<sup>and</sup> punch a hole in each end. Insert one end of the elastic in each of the holes to complete the blindfold. Cut out each tail, place a pin in the smaller end and give one tail to each player. Fasten Donkey to a hanging sheet or against a wall. Blindfold each player in turn according to the number on the tail given him. Turn him around a few times then have him step forward towards the Donkey and attempt to pin the tail on the proper place on the Donkey. He must use only ONE hand and must pin the tail on the first place he touches. The winner is the player who places his numbered tail nearest the proper place.
