Kellogg's® RICE KRISPIES™ Snack Shoppe Refill Set

Thank you for choosing this exciting EASY-BAKE brand product! For maximum enjoyment, be sure to follow all instructions carefully.

Parents Please Note:

Wash all utensils thoroughly before use (see cleaning instructions for mixing cylinder and decorators under "CLEANING" section). Wash in warm, soapy water and rinse thoroughly. Do not use a dishwasher to clean

This set includes:

- 3 marshmallow mixes
- 1 chocolate or vanilla frosting mix
- 1 packet of multicolored nonpareils

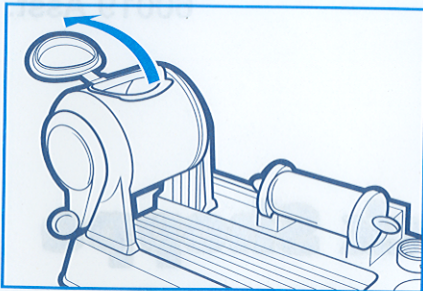

You will also need:

- RICE KRISPIES™ Snack Shoppe and accessories
- nonstick cooking spray (butter-flavored recommended)

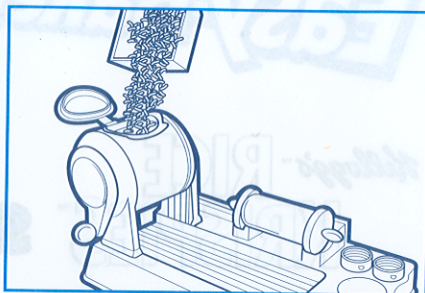

CREATE EASY-BAKE®* RICE KRISPIES™ SNACKS

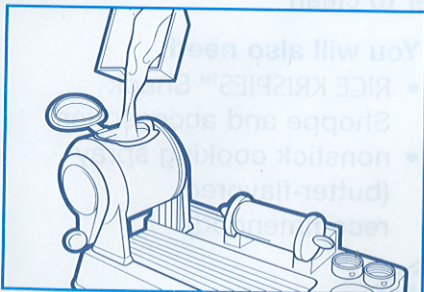

Stir Up a Marshmallow Snack...

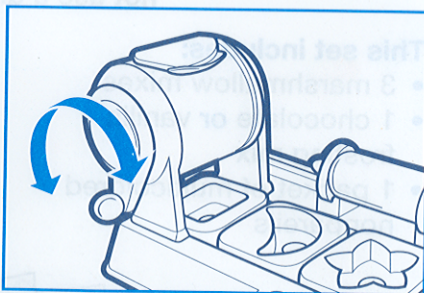

1. Turn mixing cylinder so that door is at top. Open door and coat inside of cylinder and paddle with nonstick cooking spray. Also, coat the 3 molds with nonstick cooking spray.

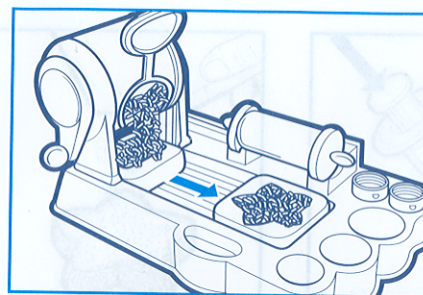

2. Add 3/4 cup of RICE KRISPIES® cereal (not included) to mixing cylinder. Close door. Rotate handle to lightly coat RICE KRISPIES® cereal with cooking spray. **Note:** COCOA RICE KRISPIES® cereal can also be used.

3. Pour packet of marshmallow mix into mixing cylinder. Close door and rotate handle until cereal is well-coated with marshmallow mix.

4. Add 1 1/2 teaspoons of water to mixing cylinder. **Note:** there is a line on the spoon to mark 1/2 teaspoon amount. Close door and rotate handle approximately 20 times in one direction, then 20 times in the opposite direction, so that mixture is thoroughly blended.

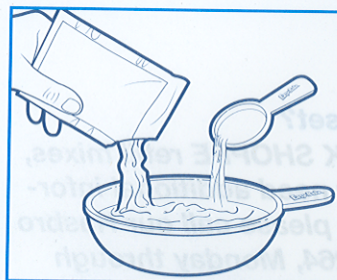

5. Place a mold under mixing cylinder. Turn cylinder down so that opening is at bottom. Open cylinder door to allow mixture to flow into mold, rotating handle as necessary. When mixture fills mold, slide it into mold compartment on base, then place remaining 2 molds under cylinder and fill. Close door and keep remaining mixture inside cylinder.

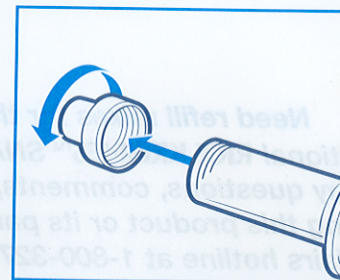

6. With the rolling pin, flatten the mixture firmly and evenly in the molds. Place molds under cylinder again and top them off with remaining mixture. (Turn handle back and forth to get all the mixture out.) Use back of handle of spoon to press mixture firmly into corners of molds.
7. Allow mixture to set in molds for 5 minutes.

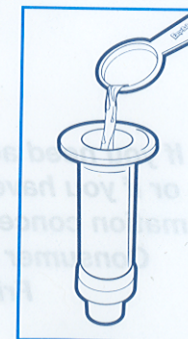

Decorate with Frosting and Nonpareils!

1. Pour contents of frosting mix packet into mixing bowl. Add 1/2 teaspoon of warm water, and stir thoroughly with spoon until smooth. (For thinner frosting, stir in droplets of water to desired consistency.)

2. Screw on one of the decorator tips.

3. With spoon, fill decorator with frosting.
