

# Quiz Booklet and Game Rules

AGES 7+  
2-6 Players

GO TO  
THE HEAD  
OF THE  
CLASS™

# GO TO THE HEAD OF THE CLASS™

For 2 to 6 Players, AGES 7+

## OBJECT

All “pupils” start in Kindergarten and move from desk to desk, advancing from grade to grade, until one player reaches the “Head of the Class” and wins the game.

## CONTENTS

Gameboard • 3 colored dice • 6 plastic tokens  
• Quiz Booklet and Game Rules

## SETUP

Place the gameboard on a table. Each player selects a playing piece. Beginning with the oldest player, each player must roll the black die and place his or her playing piece on the appropriate space, beginning in the Kindergarten (lowest-numbered) row.

*Note: During the game no two pieces may occupy the same space at the same time. If you roll the same number as another player, place your playing piece on the next empty desk of a higher number.*

## THE QUIZ BOOKLET

The quiz booklet is divided into eight sections. The first six sections contain different subjects, the seventh section contains the “Pop Quiz” questions, and the last section contains the “Exam” questions (more about those later).

Each page is divided into three columns, each with a different level of difficulty. The first column contains “Student” questions, which are the easiest to answer. The second column contains “Scholar” questions, which are moderately difficult to answer. The last column contains the most challenging “Graduate” questions.

Choose the level of questions you want to answer during the game; all players do the same. Players may choose different levels, or they may all choose the same level. If, during the game, you feel that the level you have chosen is too easy or difficult, you may choose to change your level. However, any level changes must be done at the *beginning* of a turn and before your question is asked.

As a general guide, younger children may do best playing at Student level, while older children play

best at Scholar level and teens/adults enjoy the challenge of the Graduate level.

Note: The first time you play, some questions may appear tricky; but you’ll soon learn the answers, which will help you out the next time you play.

## GAMEPLAY

Roll any two dice. The player with the highest total goes first. Play then passes to the left.

### ON YOUR TURN...

Roll all three dice to determine what question you will answer.

- The RED die indicates the category number.
- The BLACK and WHITE dice indicate the number of the question you will answer.

For example: 

If you roll Red 3, Black 4 and White 1, you must answer question 4 – 1 in category number 3 (History).

## THE TEACHER

The oldest player serves as the Teacher for each game. The Teacher opens the Quiz Booklet to the category page rolled and then reads the correct question aloud. (When it is the Teacher’s turn to play, the Teacher chooses which player gets to read the question.)

In the previous example, the Teacher would turn to category 3 (the red die roll) and read question 4-1 (the black and white roll) in the History category from the appropriate column (Student, Scholar or Graduate).

During the game, if any player gets the same question twice, the Teacher should read the next higher numbered question (or next lower if need be).

Each player is allowed a reasonable time to answer the question. However, if a player cannot make a guess in a reasonable time, it is considered an incorrect answer (see MOVING FROM DESK TO DESK).

After a question is answered, the Teacher then reads the answer out loud. Move ahead or back the appropriate number of spaces, depending on your answer (see MOVING FROM DESK TO DESK).

No player may help another player to answer a question. However, it is perfectly acceptable to use a piece of paper and pencil when answering questions in the Math category.

## THE DESKS

### MOVING FROM DESK TO DESK

- If you answered the question correctly, move ahead SIX desks, in numerical order.
- If you answered the question incorrectly, move back TWO desks.

Remember...no two pieces may occupy the same desk at any time. If you are moving forward and the desk you are moving to is already occupied, move to the next higher numbered desk.

If you are moving backward and the desk you are moving to is already occupied, move to the next lower numbered desk.

If desk number 1 is occupied by another player and you must move to that desk, you must exchange places with the player who is occupying that desk.

*For example: Anne is on desk number 1 and Jimmy is on desk number 3. Jimmy does not answer his question correctly and must move backwards to desk number 1. Anne and Jimmy switch desks and Anne is now on desk number 3, while Jimmy is on desk number 1.*

### HOMEWORK DESKS

If you land on a desk marked "Homework," immediately roll any one die of your choosing. This roll determines your grade for the homework. Grades range from an A+ (great work!) to a D (not so hot). Refer to the Homework charts listed on the gameboard to see how many spaces you must move.

### POP QUIZ DESKS

If you land on a desk marked "Pop Quiz", roll the black and white dice to determine which question you must answer. Refer to the section with the heading "Pop Quiz" in the Quiz Booklet for your question. If you answer correctly, move forward six desks. However, if you answer incorrectly, you must move back two desks.

### EXAM SPACES

The highest numbered desk in each grade is an "Exam" space. If you land on one of these spaces, immediately roll the black and white dice to deter-

mine which question you must answer. Refer to the section with the heading "Exam" in your Quiz Booklet for your question. If you answer an Exam question correctly, move ahead nine spaces. If you answer an Exam question incorrectly, you must move back two spaces.

### THE LAST SIX DESKS

If you land on any of the last six desks (numbered from 85 to 90) here's your chance to shine... and possibly win the game!

On your next turn, roll the black and white dice and answer the appropriate question from the section marked "Exam" in your Quiz Booklet.

Note: If you happen to land on desk number 90 and it is already occupied, move back to the nearest unoccupied desk.

## WINNING THE GAME

If you answer an Exam question correctly while on any desk numbered 85 through 90, advance to the podium space marked "The Winner" on the gameboard. This is the Winner's Space...congratulations! You're at "The Head of the Class" and you win the game!

If you do not answer this Exam question correctly, move back two spaces. On your next turn if you are still on a desk numbered 85 through 90, you may roll and try to answer another Exam question. Good luck!

## OPTIONAL RULE – DOUBLES

If a player rolls doubles with the black and white dice (for example a 3-3 or 6-6), move forward the total number rolled if the question is answered correctly, or back the total number rolled if the question is answered incorrectly.

For example, a roll of 3-3 results in a player either moving ahead or back six spaces! A roll of 5-5 results in a player either moving ahead or back 10 spaces!

Not suitable for children under 3 years because of small parts - choking hazard.

We will be happy to hear your questions or comments about this game. US consumers please write to: Hasbro Games, Consumer Affairs Department, P.O. Box 200, Pawtucket, RI 02862 or call 1-888-836-7025 (toll-free). Canadian consumers please write to: Hasbro Canada Corporation, 2350 de la Province, Longueuil, QC, Canada J4G 1G2. European consumers please write to: Hasbro UK Ltd., Hasbro Consumer Affairs, P.O. BOX 43, Caswell Way, Newport, Wales, NP19 4YD or telephone our Helpline on 00800 2242 7276.

## Student

-  Q. In common signature time, a whole note has how many beats?  
 A. 4
-  Q. The sentence "Every Good Boy Does Fine" helps you remember what important musical letters.  
 A. *The letters of the lines on a staff*
-  Q. Who is the band that sings the song "Quit Playing Games (With my Heart)"?  
 A. *Backstreet Boys*
-  Q. What great artist was from Vinci in Italy?  
 A. *Leonardo da Vinci*
-  Q. What was invented by Adolph Sax in 1846?  
 A. *The saxophone*
-  Q. Name the 5th note on the major scale.  
 A. *Sol*
-  Q. What singer sings the song "Oops!...I Did it Again"?  
 A. *Britney Spears*
-  Q. What is the most frequently sung song of English-speaking people?  
 A. *Happy Birthday to You*
-  Q. In music, what is a V.J.?  
 A. *A video jockey*
-  Q. Did the Venus de Milo ever have arms?  
 A. *Yes (they broke off)*
-  Q. What types of buildings are the Louvre and Prado?  
 A. *Art museums*
-  Q. The head of the giant Sphinx of Egypt is set on top of what animal's body?  
 A. *A lion*
-  Q. What are the largest sculptures in North America?  
 A. *The presidents on Mt. Rushmore*
-  Q. Was Vincent van Gogh an impressionist or an expressionist painter?  
 A. *An impressionist*
-  Q. Alexander Calder is best known for what hanging, moving art form?  
 A. *The mobile*
-  Q. What stringed instrument is called the "King of the Orchestra"?  
 A. *The violin*
-  Q. True or false: Besides being an inventor, Samuel F.B. Morse was an important painter of his time.  
 A. *True*
-  Q. What Broadway and film hit was based on the life of Mozart?  
 A. *Amadeus*

## Scholar

-  Q. What musical term means "sound together"?  
 A. *Symphony*
-  Q. Complete this rock group's name: Bob Seger and the \_\_\_\_\_ Band.  
 A. *Silver Bullet*
-  Q. Who painted the ceiling of the Sistene Chapel?  
 A. *Michelangelo*
-  Q. In the theater it is traditional to say, "Break a leg." What does that mean?  
 A. *Good luck*
-  Q. True or false: When he composed his Fifth Symphony, Beethoven was deaf.  
 A. *False; he was deaf when he composed his Ninth Symphony*
-  Q. What singer had a lead part in the film *Desperately Seeking Susan*?  
 A. *Madonna*
-  Q. What three-legged structure usually holds an artist's canvas?  
 A. *An easel*
-  Q. The "op" in op art stands for what word?  
 A. *Optical*
-  Q. What is the tempo of a minuet? a) 3/4 time b) 4/4 time c) 6/8 time.  
 A. *a) 3/4 time*
-  Q. Name the profession that involves designing, planning, supervising and constructing buildings.  
 A. *Architecture*
-  Q. Who sang "Uptown Girl" and "For the Longest Time"?  
 A. *Billy Joel*
-  Q. What former *Saved By the Bell* star casts a leading role in the 1998 film *Dead Man on Campus*?  
 A. *Mark-Paul Gosselaar*
-  Q. An album "goes gold" with the sale of how many copies?  
 A. *500,000*
-  Q. Who would use a maulstick, a painter or a drummer?  
 A. *Painter*
-  Q. What term describes a painting of inanimate objects such as fruit or flowers?  
 A. *A still life*
-  Q. What country was Beethoven born in?  
 A. *Germany*
-  Q. In common signature time, a half note gets how many beats?  
 A. 2

## Graduate

-  Q. An album "goes platinum" with the sale of how many copies?  
 A. *One Million*
-  Q. Name the three B's of classical music.  
 A. *Bach, Beethoven, and Brahms*
-  Q. What was Pablo Picasso's nationality?  
 A. *Spanish*
-  Q. Name the two singers who make up the Eurythmics.  
 A. *Annie Lennox and Dave Stuart*
-  Q. Who painted *Christina's World*?  
 A. *Andrew Wyeth*
-  Q. What 1956 film, starring Grace Kelly, was a remake of *The Philadelphia Story*?  
 A. *High Society*
-  Q. What former Philadelphia chicken-plucker invited us to "do the twist"?  
 A. *Chubby Checker*
-  Q. Three kinds of columns in early times were Doric, Ionic and \_\_\_\_\_.  
 A. *Corinthian*
-  Q. What art form involves pasting pictures or other materials onto a surface?  
 A. *Collage*
-  Q. Who sang "Everything Must Change" and "Every Time You Go Away"?  
 A. *Paul Young*
-  Q. Of the Gilbert and Sullivan team, who wrote the words?  
 A. *Gilbert*
-  Q. What was the "explosive" nickname of the saxophone great Julian Adderley?  
 A. *Cannonball*
-  Q. In his directorial debut, Robert Redford won the Academy Award for what 1980 film?  
 A. *Ordinary People*
-  Q. What is the name of the rock group who sang "Hungry Like the Wolf"?  
 A. *Duran Duran*
-  Q. What term describes an informal get-together of musicians?  
 A. *Jam*
-  Q. In the 1960's, what pop artist made the experimental film *Sleep*, which shows a man asleep for six hours?  
 A. *Andy Warhol*
-  Q. What is the largest family of musical instruments?  
 A. *Percussion*

-  Q. In the Raiders of the Lost Ark, what was the profession of Indiana Jones?  
A. *Archaeologist or Professor*
-  Q. To a jazz musician, a "bash" is: a) A party b) A drum stick c) A musical note.  
A. *A party*
-  Q. What are the jitterbug, the swim and the hustle?  
A. *Dances*
-  Q. If you "tickle the ivories," what are you doing?  
A. *Playing the piano*
-  Q. What musical group's three members have the first names Kelly, Michelle, and Beyonce?  
A. *Destiny's Child*
-  Q. What does an artist use a palette for?  
A. *Mixing paints*
-  Q. Who succeeded David Lee Roth as Van Halen's lead singer?  
A. *Sammy Hagar*
-  Q. What are the lyrics of a song?  
A. *The words*
-  Q. Is the viola smaller or larger than the violin?  
A. *Larger*
-  Q. What is a painting of a person called?  
A. *A portrait*
-  Q. What singer released the single "Genie in a Bottle"?  
A. *Christina Aguilera*
-  Q. During a symphony, when is the finale played?  
A. *At the end*
-  Q. What is Pablo Picasso famous for?  
A. *Painting*
-  Q. Complete the name of this American folk artist: Grandma \_\_\_\_.  
A. *Moses*
-  Q. What band consists of the members Justin Timberlake, JC Chasez, Lance Bass, Chris Kirkpatrick, and Joey Fatone?  
A. *'N Sync*
-  Q. What kind of musical instrument was Tubby?  
A. *A Tuba*
-  Q. In what 1982 movie does a 10-year-old boy befriend a creature from another planet?  
A. *E.T. The Extra-Terrestrial*
-  Q. Name two of the three primary colors.  
A. *Red, blue, yellow (Accept any two)*

-  Q. Who was not a painter? a) John James Audubon b) Peter Paul Reubens c) Gian-Carlo Menotti  
A. *c) Gian-Carlo Menotti*
-  Q. What popular musician began life as Steveland Morris?  
A. *Stevie Wonder*
-  Q. What French artist became famous for his paintings of ballerinas? a) Monet b) Manet c) Degas.  
A. *c)Degas*
-  Q. What is the more popular name for an award given by the National Academy of Recording Arts and Sciences?  
A. *The Grammy*
-  Q. What country singer released the song "Man! I Feel Like A Woman"?  
A. *Shania Twain*
-  Q. Name the two adventurous robots of Star Wars fame.  
A. *R2D2 and C-3PO*
-  Q. Luciano Pavarotti is: a) A guitarist b) A sculptor c) A tenor.  
A. *c) A tenor*
-  Q. Developed in the South, what is the only true native musical instrument in the U.S.?  
A. *The banjo*
-  Q. What instrument has been around longer, the harpsichord or the flute?  
A. *The flute*
-  Q. What painting, by da Vinci, is so valuable that it has no set price?  
A. *The Mona Lisa*
-  Q. What musical family does the piccolo belong to?  
A. *Woodwind*
-  Q. A fresco is a painting on: a) Wood b) Canvas c) Plaster.  
A. *c) Plaster*
-  Q. What actor starred in the film Top Gun?  
A. *Tom Cruise*
-  Q. To a jazz musician, what is a "gig"?  
A. *A job*
-  Q. Gilbert Stuart was most noted for his paintings of what President?  
A. *George Washington*
-  Q. Who would be more interested in a flageolet, a sculptor or a musician?  
A. *A musician*
-  Q. Who sang the songs "Get the Party Started" and "Missundastood"?  
A. *Pink*
-  Q. The trumpet is a member of what family of instruments?  
A. *Brass*
-  Q. What art form is a heavy, woven fabric with pictures and designs, and is often hung on a wall?  
A. *Tapestry*

-  Q. True or false: Alexandre Gustave Eiffel designed the Statue of Liberty.  
A. *False. (Bartoli was the designer; Eiffel was the architect)*
-  Q. What Beatles LP contains the songs "Rocky Raccoon", "Glass Onion", and "Savoy Truffle"?  
A. *The White Album*
-  Q. For whom is the song "Hail to the Chief" played?  
A. *The President of the United States*
-  Q. The flute is a member of what family of musical instruments?  
A. *Woodwinds*
-  Q. Complete the title of this opera: The Barber of \_\_\_\_.  
A. *Seville*
-  Q. Of the 88 keys on a standard piano, how many are black, and how many are white?  
A. *36 are black, 52 are white*
-  Q. Who painted Blue Boy? a) Gauguin b) Gainsborough c) Grunewald.  
A. *b) Gainsborough*
-  Q. What opera star is nicknamed "Bubbles"?  
A. *Beverly Sills*
-  Q. What musical family does the ukulele belong to?  
A. *String*
-  Q. According to Hollywood legend, of whom was it written, "Can't act. Can't sing. Balding. Can dance a little."?  
A. *Fred Astaire*
-  Q. Though they were made popular by other singers, who wrote "The Circle Game", "Both Sides Now", and "Woodstock"?  
A. *Joni Mitchell*
-  Q. Give the full name for whom the sousaphone was named.  
A. *John Philip Sousa*
-  Q. On what island did reggae music originate?  
A. *Jamaica*
-  Q. What is the significance of the durability of the old Imperial Hotel in Tokyo?  
A. *It is believed to be the first earthquake-proof building*
-  Q. What legendary dancer died as a result of an accident involving her scarf and the wheel of her car?  
A. *Isadora Duncan*
-  Q. Martha Graham is most associated with: a) Square dancing b) Modern dance c) MTV.  
A. *b) Modern Dance*
-  Q. Jackson Pollock was: a) A symphony conductor b) The inventor of the synthesizer c) A painter.  
A. *c) A painter.*
-  Q. Who was the "Waltz King"?  
A. *Johann Strauss*
-  Q. Poet Robert Burns wrote what popular annual song?  
A. *Auld Lang Syne*

## Student

- Q. Name four of the six New England States.  
A. *Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont (Accept any four)*
- Q. What imaginary line separates the Earth's northern and southern hemispheres?  
A. *The equator*
- Q. The part of a map that contains the symbols and their meanings is called the \_\_\_\_\_.  
A. *Key or legend*
- Q. Where would you go to find the Sea of Tranquility?  
A. *The moon*
- Q. In *The Wizard of Oz*, what route did Dorothy take to the Emerald City?  
A. *The Yellow Brick Road*
- Q. What is the name for a land area completely surrounded by water?  
A. *Island*
- Q. What is the oldest U.S. city? a) Boston b) Philadelphia c) St. Augustine.  
A. *c) St. Augustine*
- Q. The Pacific Ocean is about \_\_\_\_\_ the size of the Atlantic Ocean. a) Twice b) Five times c) Eight times.  
A. *a) Twice*
- Q. Name four of the five states whose names begin with compass directions.  
A. *North and South Carolina, North and South Dakota, West Virginia (Accept any four)*
- Q. In what country would you find counties named Clare, Limerick, Kerry and Galway?  
A. *Ireland*
- Q. What is the largest country in South America?  
A. *Brazil*
- Q. What province of Canada has a name meaning "New Scotland"?  
A. *Nova Scotia*
- Q. Which contains more countries, the northern hemisphere or the southern hemisphere?  
A. *The northern hemisphere*
- Q. What country is shaped like a boot?  
A. *Italy*
- Q. What is the only state ending in "ing"?  
A. *Wyoming*
- Q. On a map, what does an airplane symbol usually stand for?  
A. *An airport*
- Q. What country is also a continent?  
A. *Australia*

## Scholar

- Q. Identify three of the four states that begin and end with the same letters.  
A. *Alabama, Alaska, Arizona, Ohio (Accept any three)*
- Q. What is the largest lake in Utah?  
A. *The Great Salt Lake*
- Q. Is the Tropic of Cancer north or south of the equator?  
A. *North*
- Q. Where is baseball's Tiger Stadium?  
A. *Detroit, Michigan*
- Q. Which is not a province of Canada? a) Calgary b) Quebec c) Manitoba.  
A. *a) Calgary*
- Q. Alphabetically, what state comes after Indiana?  
A. *Iowa*
- Q. In what country could you visit the Wailing Wall?  
A. *Israel*
- Q. What state is the Lone Star State?  
A. *Texas*
- Q. Degrees of latitude measure distance in which direction from the equator?  
A. *North and South*
- Q. Despite what its name implies, about five-sixths of Greenland is covered by \_\_\_\_\_.  
A. *Ice*
- Q. The name of what Louisiana city translates to "red stick"?  
A. *Baton Rouge*
- Q. What word comes from the Greek word meaning "earth description"?  
A. *Geography*
- Q. In what country could you visit the Yucatan Peninsula?  
A. *Mexico*
- Q. Complete the title of this Jules Verne book: \_\_\_\_\_ in Eighty Days.  
A. *Around the World*
- Q. What is the capital of Alaska? a) Anchorage b) Fairbanks c) Juneau.  
A. *c) Juneau*
- Q. What European city uses waterways instead of roads?  
A. *Venice, Italy*
- Q. Name the capital of Florida.  
A. *Tallahassee*

## Graduate

- Q. What state has the motto "Eureka" (I have found it)?  
A. *California*
- Q. In a musical by the same name, what mythical Scottish city appears every 100 years?  
A. *Brigadoon*
- Q. What city is farthest east: Philadelphia, Washington D.C., or Hartford?  
A. *Hartford*
- Q. What highway is farther north: Interstate 80 or Interstate 10?  
A. *Interstate 80*
- Q. Which is the saltiest: the Dead Sea, the Red Sea, or the Caspian Sea?  
A. *The Dead Sea*
- Q. What country was once called Ceylon?  
A. *Sri Lanka*
- Q. In what California city would you visit the La Brea Tar Pits?  
A. *Los Angeles*
- Q. What country boasts more sheep than people?  
A. *New Zealand*
- Q. Name the state largest in area and the state largest in population.  
A. *Alaska (area) and California (population)*
- Q. The 38th Parallel divides what countries?  
A. *North Korea and South Korea*
- Q. True or false: At Niagara Falls, the Canadian (Horseshoe) falls is higher than the American falls.  
A. *False*
- Q. What does the Spanish word pueblo mean?  
A. *Village*
- Q. Which country is farthest south: Venezuela, Paraguay, or Uruguay?  
A. *Uruguay*
- Q. The S.S. Morro Castle burned off the coast of what state in 1934?  
A. *New Jersey*
- Q. What country is Bombay located in?  
A. *India*
- Q. What Central American country was once called British Honduras?  
A. *Belize*
- Q. Addis Ababa is the capital of what country?  
A. *Ethiopia*
- Q. In what southern city would you find Little Havana?  
A. *Miami*

-  Q. What is the only one syllable state?  
A. *Maine*
-  Q. What is the present name for the country that was once Siam? a) Iran b) Thailand c) China.  
A. *b) Thailand*
-  Q. In what country would you find the islands of Kyushu, Shikoku, and Honshu?  
A. *Japan*
-  Q. What is the capital of Rhode Island?  
A. *Providence*
-  Q. In what English city would you visit Piccadilly Circus?  
A. *London*
-  Q. What state's name means "Land of the Indians"?  
A. *Indiana*
-  Q. In what ocean is the world's deepest point? a) The Atlantic b) The Pacific c) The Indian.  
A. *b) The Pacific*
-  Q. On what continent is the world's highest mountain?  
A. *Asia*
-  Q. In what African country could you visit Cape Town, Durban, and Pretoria?  
A. *South Africa*
-  Q. Name three of the four states that begin with the word "New."  
A. *New York, New Jersey, New Hampshire, New Mexico (Accept any three)*
-  Q. To travel from Alabama to Mississippi, in what direction would you go?  
A. *West*
-  Q. The plain formed by deposits at the mouth of a river is called \_\_\_\_\_. a) Delta b) Tundra c) Fjord.  
A. *a) Delta*
-  Q. What is the special name given to the boundary between Maryland and Pennsylvania?  
A. *Mason-Dixon Line*
-  Q. The five Great Lakes are Superior, Ontario, Erie, Michigan, and Huron. Use the first letter of each to create a word that will help you remember all their names.  
A. *HOMES*
-  Q. In what ocean is the legendary Bermuda Triangle?  
A. *Atlantic*
-  Q. What is the capital of your state?  
A. *Answers will vary*
-  Q. A group of mountains is called a mountain \_\_\_\_\_.  
A. *Range*
-  Q. Vast, treeless plains between the Atlantic and the Andes in Argentina are called \_\_\_\_\_. a) Terrazos b) Pampas c) Lowlands.  
A. *b) Pampas*
-  Q. What is the importance of the compass picture shown on a map?  
A. *It gives the compass directions*

-  Q. In 1947, what was discovered in a cave near Jericho? a) The Dead Sea Scrolls b) The Rosetta Stone c) Noah's Ark.  
A. *a) The Dead Sea Scrolls*
-  Q. Where is the Baseball Hall of Fame?  
A. *Cooperstown, New York*
-  Q. In what country could you visit Canberra, Brisbane, and Melbourne?  
A. *Australia*
-  Q. Reykjavik is the capital of what country?  
A. *Iceland*
-  Q. Name the two great seas linked by the Suez Canal.  
A. *Red Sea and the Mediterranean Sea*
-  Q. What is the capital of China?  
A. *Beijing*
-  Q. What country did President Nixon visit in February 1972, which profoundly altered world politics?  
A. *The People's Republic of China*
-  Q. What state, nicknamed the "Gem State," is better known for its potatoes?  
A. *Idaho*
-  Q. Until 1978, what country controlled the Panama Canal?  
A. *The United States*
-  Q. Where is the Bay of Pigs?  
A. *Cuba*
-  Q. Imaginary lines running from the North Pole to the South Pole are called meridians of \_\_\_\_\_.  
A. *Longitude*
-  Q. In what state does Mt. St. Helens erupt?  
A. *Washington*
-  Q. Name four of the five states with shores on the Pacific Ocean.  
A. *California, Oregon, Washington, Alaska, Hawaii (Accept any four)*
-  Q. Of what geographical importance are Mt. McKinley and Death Valley?  
A. *They are the highest and lowest points in North America*
-  Q. What volcano buried Pompeii in 79 A.D.?  
A. *Mt. Vesuvius*
-  Q. What country is Venice located in?  
A. *Italy*
-  Q. Name the only Great Lake entirely in the United States.  
A. *Lake Michigan*
-  Q. Which country is not in South America? a) Surinam b) French Guiana c) Sumatra.  
A. *c) Sumatra*
-  Q. A ring-shaped coral island is called \_\_\_\_\_. a) An atoll b) A lagoon c) An isthmus.  
A. *a) An atoll*

-  Q. Which is farthest north: Miami, Ft. Lauderdale or West Palm Beach?  
A. *West Palm Beach*
-  Q. Bermuda lies about 600 miles east of: Florida, Cuba or South Carolina?  
A. *South Carolina*

A. 175
- Q. If  $N=4.5+9.7$ , what is the value of N?  
A. 14.2
- Q. If  $N^2$  equals 100, what is the value of N?  
A. 10
- Q. What year were you born if the year was MCMLXXIV?  
A. 1974
- Q. Find the next number in this series: 17, 18, 20, 23, 27, 32, \_\_\_\_.  
A. 38
- Q. What is the next number in this series: 2, 3, 6, 7, 14, \_\_\_\_.  
A. 15
- Q. What is the greatest common factor of 18 and 24?  
A. 6
- Q. Which is smaller,  $1/2$  or  $7/15$ ?  
A.  $7/15$
- Q. What is the sum of the legs on a tripod plus a baker's dozen plus Snow White's dwarfs?  
A. 23
- Q. Reduce  $9/27$  to its lowest terms.  
A.  $1/3$
- Q. Find the answer.  $(2 \times 100) + (3 \times 10) + (4 \times 1)$   
A. 234
- Q. If you buy items that cost \$15.50, \$3.99, and \$27.00, how much change would you receive from a fifty-dollar bill?  
A. \$3.51
- Q. If you have a half of a dollar, one-fourth of a dollar, one-tenth of a dollar, and a dollar. How much money do you have?  
A. \$1.85
- Q. What is the name for the top number in a fraction?  
A. Numerator
- Q. If  $a=6$  and  $b=5$ , what is the value of  $2(a+b)$ ?  
A. 22

## Graduate

- Q. Who is considered the father of geometry?  
A. Euclid
- Q. On a right triangle, what side is the opposite of the right angle?  
A. The hypotenuse
- Q. Subtract the square root of 49 from the square root of 64.  
A. One
- Q. Round 12.86 to the nearest tenth.  
A. 12.9
- Q. What name is given to the answer of a division problem?  
A. Quotient
- Q. Which is an example of a prime number: 25, 31, or 36?  
A. 31
- Q. Change  $35/4$  to a mixed number.  
A.  $8 \frac{3}{4}$
- Q. What is the reciprocal of  $7/8$ ?  
A.  $8/7$
- Q. If  $(-7)+(-3)=N$ , what is the value of N?  
A. -10
- Q. How much is the 5% sales tax on a tennis racket that costs \$60.00?  
A. \$3.00
- Q. Reduce  $12/15$  to lowest terms.  
A.  $4/5$
- Q. How many halves are there in 37?  
A. 74
- Q. Complete this number sequence: 2, 3, 5, 8, 13, 21, \_\_\_\_.  
A. 34 (Each number is the sum of the two before it)
- Q. Add the numbers in "--\_\_\_\_, \_\_\_\_, buckle my shoe, \_\_\_\_, \_\_\_\_, shut the door." Multiply that sum by the number of sides in a hexagon. What is the result?  
A. 60
- Q. Two-fifths of 100 equals what percent?  
A. 40%
- Q. The length of a rectangle is 7 inches, the width is 3 inches. What is the measurement of its perimeter?  
A. 20 inches
- Q. You have a bill with George Washington's likeness, two with Abraham Lincoln's, and four with Andrew Jackson's. How much money do you have?  
A. \$91.00
- Q. What is the value of X if  $4/7=6/x$ ?  
A. 10.5

-  Q. Hannah is 4 feet 7 inches tall. Corey is 2 inches taller. How tall is Corey?  
A. *4 feet 9 inches tall*
-  Q. Add the number of sides of a triangle to the number of wheels on a bicycle.  
A. *Five*
-  Q. I am an odd number greater than 71 and less than 79. I can be divided by 25. What number am I?  
A. *75*
-  Q. What is larger,  $1/4$  or  $1/5$ ?  
A.  *$1/4$*
-  Q. What is  $8\frac{1}{2}$  minus  $2\frac{1}{2}$ ?  
A. *6*
-  Q. In what type of operation do you sometimes "borrow"?  
A. *Subtraction*
-  Q. What process is the opposite of multiplication?  
A. *Division*
-  Q. How many inches are there in a yard and a half?  
A. *54*
-  Q. You buy a dozen eggs for \$1.35. What is your change from a five-dollar bill?  
A. *\$3.65*
-  Q. What is  $2/7 + 4/7$ ?  
A.  *$6/7$*
-  Q. Is a square a rectangle?  
A. *Yes*
-  Q. When it is 10:00 a.m. in California, it is 1:00 p.m. in Boston. What is the difference in hours?  
A. *Three hours*
-  Q. How many degrees are there in a right angle?  
A.  *$90^\circ$*
-  Q. How many zero's are in twenty-thousand?  
A. *Four*
-  Q. What is  $5+5+5$ ?  
A. *15*
-  Q. How many eggs are there in one dozen?  
A. *12*
-  Q. Round 77 to the nearest ten.  
A. *80*
-  Q. Socks come two pairs in a package for \$3.00. How much will six pairs cost?  
A. *\$9.00*
-  Q. How many legs do two spiders have?  
A. *Eight*
-  Q. What is  $1 - 1/7$ ?  
A.  *$6/7$*

-  Q. Ann is 5 feet, 6 inches tall. How tall is she in inches only?  
A. *66 Inches tall*
-  Q. What is the value of  $2^3$ ?  
A. *8*
-  Q. The area of a room is 207 square feet. How many square yards of carpeting will be needed to cover the floor? a) 64 b) 34 c) 23.  
A. *c) 23 square yards*
-  Q. A car trip began at 9:15 a.m. and ended at 11:45 a.m. that same day. How long did the trip take?  
A. *2 hours and 30 minutes*
-  Q. On a car trip, you used 11 gallons of gas and went 220 miles. How many miles per gallon did you get?  
A. *20*
-  Q. You exchanged a five-dollar bill and two quarters for nickels. How many nickels do you have?  
A. *110*
-  Q. In the number 54.786, which digit is in the tenths place?  
A. *7*
-  Q. What fraction is equivalent to  $2/3$ ? a)  $6/8$  b)  $4/9$  c)  $8/12$ .  
A. *c)  $8/12$*
-  Q. If a person was born on June 2, 1937, how old will he be on March 19, 1992?  
A. *54*
-  Q. There are 18 girls and 15 boys in the chorus. What is the ratio of boys to girls?  
A. *15 to 18 or 5 to 6*
-  Q. Find 10% of \$20.00  
A. *\$2.00*
-  Q. The side of a square measures 14 inches. What is the measurement of its perimeter?  
A. *56 inches*
-  Q. Subtract the number of sides on an octagon from the number of keys on a piano. What is the result?  
A. *80 (88 keys - 8 sides)*
-  Q. If  $6 \times 7 = N$ , what is the value of N?  
A. *42*
-  Q. What is the sum of  $.7 + .07 + 7.007$ ?  
A. *7.777*
-  Q. Take your age, double it, add 3, subtract four, double that number, multiply by zero. What is the result?  
A. *Zero*
-  Q. A \$40.00 tennis racket is on sale for 20% off. What is the sale price?  
A. *\$32.00*
-  Q. What is the value of 1 to the 99th power?  
A. *1*

-  Q. If  $a=2$  and  $b=3$ , then  $3a+4b=?$   
A. *18*
-  Q. In a right triangle, the square length of the hypotenuse is equal to the sum of the square of the other two sides. Name this theorem.  
A. *The Pythagorean Theorem*
-  Q. What is the probability of an impossible event?  
A. *Zero*
-  Q. You draw a card at random from a standard card deck of 52. What are the odds in favor of drawing a diamond?  
A.  *$13/52$  or  $1/4$*
-  Q. A STOP sign is in the shape of an equilateral \_\_\_\_\_.  
A. *Octagon*
-  Q. The diameter of a circle is 24 meters. What is the measurement of its radius?  
A. *12 meters*
-  Q. Find the difference.  $3/8 - 1/16 = ?$   
A.  *$5/16$*
-  Q. Find the sum.  $(-9) + (+12) = ?$   
A. *+3*
-  Q. What is the square of 12?  
A. *144*
-  Q. A yard plus an inch equals how many inches?  
A. *37*
-  Q. On a scalene triangle, how many sides have an equal length?  
A. *None*
-  Q. If a triangle has a height of 11 centimeters, and a base of 4 centimeters, what is its area?  
A. *22 square centimeters*
-  Q. Sue received the following math scores: 98, 70, 84, 92, 76. What is her average?  
A. *84*
-  Q. What special number is essential to finding the area of a circle?  
A.  *$\pi$  or  $\pi$*
-  Q. If you have a \$2.00 roll of nickels, a \$5.00 roll of dimes, and a 50¢ roll of pennies, how many coins do you have?  
A. *140*
-  Q. 88% is what fraction reduced to lowest terms?  
A.  *$22/25$*
-  Q. Start with 13. Triple it. Subtract 16. Subtract the number of sides of a decagon. What is the result?  
A. *13*
-  Q. What is the cost of a \$250.00 item that requires 7% sales tax?  
A. *\$267.50*

## Student

- Q. True or false: The sun is not a solid body like Earth, it is a huge body of very hot gases.  
A. *True*
- Q. On Earth there are two large areas of earthquake activity. They are called earthquake \_\_\_\_\_. a) Belts b) Blocks c) Contours.  
A. *a) Belts*
- Q. What organ is the "boss" of the body?  
A. *The brain*
- Q. An echo is created when sound waves have been.  
a) Bounced b) Absorbed.  
A. *a) Bounced*
- Q. Is hard water easy or difficult to use for washing?  
A. *Difficult*
- Q. The Gulf Stream is a warm current that moves. a) Along the top layer of the ocean b) Along the bottom layer of the ocean.  
A. *a) Along the top layer of the ocean*
- Q. Green plants "breathe in" carbon dioxide. What do they "breathe out"? a) Chlorine b) Carbon c) Oxygen.  
A. *c) Oxygen*
- Q. What word describes the pull Earth has on an object?  
A. *Gravity*
- Q. Which is an example of a one-celled animal?  
a) Amoeba b) Jellyfish c) Roundworm.  
A. *a) Amoeba*
- Q. Air that is heated does what? a) Expands b) Contracts.  
A. *a) Expands*
- Q. The lowest part of a wave is the \_\_\_\_\_. a) Trough b) Flow c) Crest.  
A. *a) Trough*
- Q. A glacier is a slow moving river of \_\_\_\_\_.  
A. *Ice*
- Q. Does air have weight?  
A. *Yes*
- Q. What does a barometer measure? a) Temperature b) Air pressure c) Speed of light.  
A. *b) Air pressure*
- Q. I have a nucleus, a head and a dust tail. I can be seen every 76 years. What am I?  
A. *Halley's comet*
- Q. Name six of the nine planets.  
A. *Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto (Accept any six)*
- Q. In times of sorrow, your lachrymal glands produce this.  
A. *Tears*

## Scholar

- Q. Some animals live part of their lives in the water and part out of water. What is their general name?  
A. *Amphibians*
- Q. True or false: The hardest of all minerals is the diamond.  
A. *True*
- Q. What is the chemical symbol for ice?  
A. *H<sub>2</sub>O*
- Q. What is the most common blood type?  
A. *Type O*
- Q. Name the three states of matter.  
A. *Solid, liquid and gas*
- Q. Another name for the banana spider is the \_\_\_\_\_.  
a) Black Widow b) Tarantula c) Trapdoor Spider.  
A. *b) Tarantula*
- Q. The distance light travels in one year is called a \_\_\_\_\_.  
A. *Light year*
- Q. In what part of the body are the smallest bones?  
A. *The ear*
- Q. What would be more interested in a bathyscaphe, an aquanaut or an astronaut?  
A. *An aquanaut*
- Q. When a frog is in 60 degree water its temperature is 60 degrees. When you are in 60 degree water, your temperature is -----.  
A. *Normal – about 98.6 degrees*
- Q. When you rub your hands together, heat is produced by what means?  
A. *Friction*
- Q. A lever is a rigid bar, like a seesaw. On what is the bar resting? a) Resistor b) Fulcrum c) Axle.  
A. *b) Fulcrum*
- Q. A BTU is a measure of heat. BTU is an abbreviation for \_\_\_\_\_.  
A. *British Thermal Unit*
- Q. Which is not a good conductor of electricity?  
a) Silver b) Copper c) Wood.  
A. *c) Wood*
- Q. Name the three principal parts of an atom.  
A. *Protons, neutrons, electrons*
- Q. In what part of the body does digestion begin?  
A. *The mouth*
- Q. What is the sun's distance from the Earth? A) About 200 million miles b) About 186 thousand miles c) About 93 million miles.  
A. *c) About 93 million miles*

## Graduate

- Q. The change in frequency of a sound or light wave as an object moves closer or farther from an observer is an example of this. a) Stimulus/response bond b) Doppler effect.  
A. *b) Doppler effect*
- Q. Ants live on all continents except one. Name it.  
A. *Antarctica*
- Q. What is energy in motion? a) Chemical energy b) Kinetic energy c) Particle energy.  
A. *b) Kinetic Energy*
- Q. Who would be more interested in a parsec - a biologist or an astronomer?  
A. *An astronomer*
- Q. Whose theory is expressed by the mathematical formula  $e=mc^2$ ?  
A. *Einstein*
- Q. What is the speed of light? a) 186,000 mi./sec. b) 186,000 mi./hr. c) 186,000 ft./sec.  
A. *a) 186,000 mi./sec.*
- Q. The amount of energy (heat) required to raise one gram of water one degree centigrade is called \_\_\_\_\_.  
A. *A calorie*
- Q. Name three of the four types of teeth in the human adult.  
A. *Incisors, canines, premolars, molars (Accept any three)*
- Q. The solid portion of blood is made up of cells and platelets. What is the liquid portion called?  
A. *Plasma*
- Q. A cloud is formed when water vapor does what in rising air? a) Condenses b) Evaporates c) Circulates.  
A. *a) Condenses*
- Q. He is credited with inventing dynamite. a) Thomas Edison b) Alessandro Volta c) Alfred Nobel.  
A. *c) Alfred Nobel*
- Q. A large cloud of gas and dust in space is called a:  
a) Black hole b) Satellite c) Nebula.  
A. *c) Nebula*
- Q. The special protein which helps the blood clot is:  
a) Fibrinogen b) Carcinogen c) Adrenalin.  
A. *a) Fibrinogen*
- Q. Our sun is an average sized star. Larger stars are called giant stars; smaller ones are called \_\_\_\_ stars.  
A. *Dwarf*
- Q. Name the layer of atmosphere closest to the Earth.  
a) Ionosphere b) Troposphere c) Stratosphere.  
A. *b) Troposphere*
- Q. True or false: After an atomic explosion, radioactive particles can stay in the air for as long as ten years.  
A. *True*

-  Q. Name the only place in the body where the cardiac muscle is found.  
A. *The heart*
-  Q. What is the opposite of deceleration?  
A. *Acceleration*
-  Q. What does a meteorologist study? a) Meteors b) Weather c) The position of the planets.  
A. *b) Weather*
-  Q. This largest body organ can be said to "hold your insides in."  
A. *The skin*
-  Q. True or false: Crocodiles and alligators are the same animals.  
A. *False*
-  Q. True or false: At night, bodies of water cool faster than land.  
A. *False*
-  Q. Which cells – white or red – destroy bacteria and help repair tissues?  
A. *White*
-  Q. When the sun, moon and Earth align, it is called \_\_\_\_\_.  
A. *An eclipse*
-  Q. What four annual events are caused by the tilt of the Earth's axis in relation to the sun?  
A. *The seasons*
-  Q. Groupings of stars named after gods, heroes and heroines, animals and objects are called \_\_\_\_\_.  
A. *Constellations*
-  Q. Clouds that look like huge fluffs of cotton are called \_\_\_\_\_. a) Stratus b) Cirrus c) Cumulus.  
A. *c) Cumulus*
-  Q. What does a decibel measure? a) Light b) Heat c) Sound.  
A. *c) Sound*
-  Q. True or false: The sea sponge is an animal.  
A. *True*
-  Q. A flower's sweet liquid that is attractive to bees is called \_\_\_\_\_. a) Nectar b) Perfume c) Pulp.  
A. *a) Nectar*
-  Q. Together, these two elements make up 99% of the air. a) Hydrogen and Oxygen b) Nitrogen and Oxygen.  
A. *b) Nitrogen and Oxygen*
-  Q. What is the combination of fog plus smoke called?  
A. *Smog*
-  Q. Why wouldn't a scientist buy these vegetables: peas, beans, tomatoes, cucumbers, pumpkins?  
A. *A scientist would consider them to be fruits!*
-  Q. True or false: Octopus and squid are different names for the same animal.  
A. *False*
-  Q. This familiar compound –  $C_{12}H_{22}O_{11}$  – might be found on your dinner table.  
A. *Cane sugar*

-  Q. The epidermis is your top layer of skin. What is the next layer called?  
A. *The dermis*
-  Q. A charged atom or group of atoms is called \_\_\_\_\_.  
A. *An ion*
-  Q. Hydrotropism is the tendency of a plant to grow towards \_\_\_\_\_.  
A. *Water*
-  Q. All the bones in the body make up what system?  
A. *Skeletal system*
-  Q. The splitting of a nucleus of an atom is called \_\_\_\_\_. a) Fusion b) Diffusion c) Fission.  
A. *c) Fission*
-  Q. True or false: The human body can survive longer without food than without water.  
A. *True*
-  Q. What is the chemical symbol for hydrogen?  
A. *H*
-  Q. What is the familiar name for the aurora borealis?  
A. *The northern lights*
-  Q. Name the band of invisible waves found just beyond visible violet light rays.  
A. *Ultraviolet*
-  Q. Complementary colors are any two which, when mixed together produce \_\_\_\_\_ light. a) White b) Grey c) Yellow.  
A. *a) White*
-  Q. Who would be interested in fossils, a paleontologist or a phlebotomist?  
A. *A paleontologist*
-  Q. In general, are men's vocal chords longer and thicker or shorter and thinner than women's?  
A. *Longer and thicker*
-  Q. What term refers to the speed of sound (741 miles per hour at sea level)?  
A. *Mach*
-  Q. The chemical symbol for copper is \_\_\_\_\_. a) Co b) Hg c) Cu.  
A. *c) Cu*
-  Q. Your elbow is an example of what kind of joint?  
A. *b) Hinge*
-  Q. The lack of what vitamin causes scurvy?  
A. *Vitamin C*
-  Q. In what part of the body would you find a watery liquid called aqueous humor?  
A. *The eye*
-  Q. What gland controls a person's growth?  
A. *Pituitary gland*
-  Q. The nose, pharynx, trachea, larynx, and lungs make up what body system?  
A. *Respiratory system*

-  Q. When materials burst into flames all by themselves, the phenomenon is called \_\_\_\_\_.  
A. *Spontaneous Combustion*
-  Q. What sea dweller can turn its stomach inside out? a) Clam b) Starfish c) Octopus.  
A. *b) Starfish*
-  Q. What part of the brain controls muscle movement? a) Cerebrum b) Medulla c) Cerebellum.  
A. *c) Cerebellum*
-  Q. The point at which a solid becomes a liquid is called its \_\_\_\_\_.  
A. *Melting point*
-  Q. Who would be more interested in a perigee – a botanist or an astronaut?  
A. *An astronaut*
-  Q. Who invented the diesel engine? a) Rudolf Diesel b) Evangelista Torricelli c) Elias Howe.  
A. *a) Rudolf Diesel*
-  Q. Do peacocks lay eggs?  
A. *No (Peahens lay the eggs!)*
-  Q. Which hangs down from the top of a cave – a stalagmite or a stalactite?  
A. *A stalactite*
-  Q. What device is used for recording earthquake waves?  
A. *A seismograph*
-  Q. A monkey has a prehensile tail. What does a prehensile tail do?  
A. *Grasps, holds, wraps around*
-  Q. This unit of measure is one-fifth of a gram and is used in determining the weight of gems.  
A. *A carat*
-  Q. This insect's shape has not changed for 350 million years.  
A. *The cockroach*
-  Q. Who would be more interested in tectonic plates, a geologist or a dentist?  
A. *A Geologist*
-  Q. What word describes the present state of the passenger pigeon and the dodo?  
A. *Extinct*
-  Q. Red blood cells are made in what part of the body?  
A. *Bone marrow*
-  Q. Which planet is about the same size as Earth?  
A. *Venus*
-  Q. Named after a type of fish, this kind of cloud formation resembles fish scales.  
A. *Mackerel*
-  Q. The process by which an animal can grow new body parts is called \_\_\_\_\_.  
A. *Regeneration*
-  Q. True or false: A screw is a kind of inclined plane.  
A. *True*
-  Q. In the United States, he developed a method for quick-freezing food. a) W.H. Carothers b) Samuel Beatrice c) Clarence Birdseye.  
A. *c) Clarence Birdseye*

## Student

- Q. Which is heavier, a half moon or a full moon?  
A. *There is no difference*
- Q. Name the oldest and largest American national park.  
A. *Yellowstone National Park*
- Q. What state's name means "flowery" in Spanish?  
A. *Florida*
- Q. Name the world's most common illness.  
A. *The common cold*
- Q. How often does a leap year occur?  
A. *Once every four years*
- Q. Name a country that rhymes with brain.  
A. *Spain*
- Q. True or false: Nolan Ryan, Reggie Jackson, and Tom Seaver got their baseball starts in Little League?  
A. *True*
- Q. Name one of the two planets having no natural satellites.  
A. *Mercury, Venus (Accept either answer)*
- Q. What is the next number in this series: 1, 3, 5, 7, 9, \_\_\_\_?  
A. *11*
- Q. What day of the week contains the most letters in its name?  
A. *Wednesday*
- Q. What Disney elephant could fly?  
A. *Dumbo*
- Q. Which President was elected in 1976 to follow Gerald Ford?  
A. *Jimmy Carter*
- Q. What does NFL stand for?  
A. *National Football League*
- Q. How many ounces are there in a pound?  
A. *Sixteen*
- Q. Name two of the three states with only four letters in their name.  
A. *Iowa, Ohio, Utah (Accept any two)*
- Q. In this film, Michael J. Fox "drove" a special car into the year 1955.  
A. *Back to the Future*
- Q. In which direction would you go to travel from New Mexico to Arizona?  
A. *West*
- Q. The highest mountain range in the Americas is in:  
a) South America b) Central America c) North America.  
A. *a) South America*

## Scholar

- Q. Round 929 to the nearest ten.  
A. *930*
- Q. Find the next number in this series: 1, 2, 4, 5, 7, 8, 10, \_\_\_\_.  
A. *11*
- Q. In what state could you visit Danbury, Bridgeport and New London?  
A. *Connecticut*
- Q. Elias Howe invented the: a) Cotton gin b) Spinning jenny c) Sewing machine.  
A. *c) Sewing machine*
- Q. Rickets is a condition caused by the lack of what vitamin?  
A. *Vitamin D*
- Q. What word describes food prepared according to ancient Jewish law?  
A. *Kosher*
- Q. According to superstition, what results if you break a mirror?  
A. *Seven years of bad luck*
- Q. In boxing, what does TKO stand for?  
A. *Technical Knockout*
- Q. True or false: Cork comes from pine trees.  
A. *False*
- Q. In England, you could hold your pants up with braces; in the United States they're called \_\_\_\_.  
A. *Suspenders*
- Q. In baseball, what's the more common name for a "cuspidor curve"?  
A. *Spitball*
- Q. What fraction of a mile is a furlong?  
A. *One-eighth*
- Q. Where in China could you visit The Forbidden City?  
A. *Peking or Beijing*
- Q. What do these people have in common: Botticelli, Cezanne, and Modigliani?  
A. *They were artists*
- Q. What word sounds exactly like GROWN but is spelled differently?  
A. *Groan*
- Q. Which is the musical instrument: SYMBOL or CYMBAL?  
A. *Cymbal*
- Q. My wife could eat no lean. Who am I?  
A. *Jack Sprat*

## Graduate

- Q. What island does Italy appear to be kicking?
