

INSTRUCTIONS

For 2 to 4 Players

CONTENTS: 28 Dominoes

OBJECT: Be the player to place the last domino and complete the Circle of Life.

THE FIRST TIME YOU PLAY: Carefully punch out the 28 dominoes from the cardboard sheets. Discard any waste cardboard.

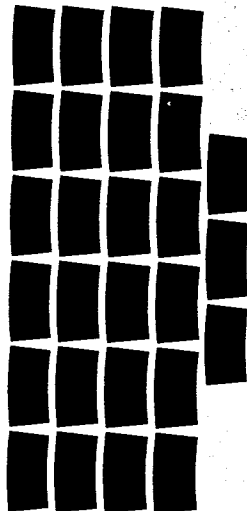

SETUP: The Circle of Life will grow to almost three feet in diameter, so be sure to find a nice big, flat surface to play on.

Find the special domino that starts the game (see below). Place this special Starting domino faceup within easy reach of all players. You will build on both sides of this domino during the game.

The Starting Domino

Turn the rest of the dominoes facedown, mix them up and lay them flat in the middle of your playing area. You may want to arrange them in rows, like this:

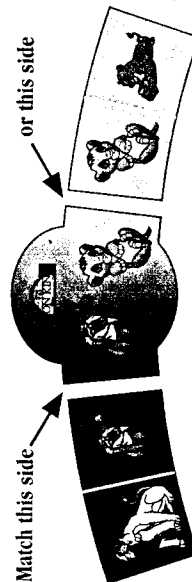

LET'S PLAY! The oldest player goes first. Play passes in a clockwise direction (to the left).

If you're the starting player, turn any two dominoes faceup. The other players should be able to see when you do this. Each domino has two parts. Look carefully at each part to see if it matches *either* part of the Starting domino. You must match both the *character* shown and the *color* of the background.

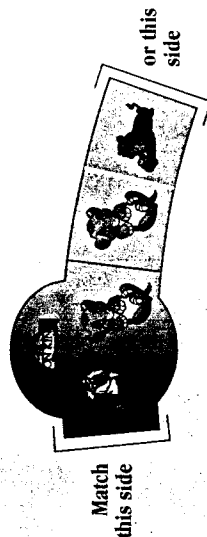

If You Don't Have a Match, turn the dominoes facedown again in the same places. Your turn is over. The player to your left now takes a turn.

If You Have a Match, place that domino's matching end right next to the part of the Starting domino it matches (see below). Keep any unmatched domino faceup. Your turn continues.

Match Color and Character

To Continue Your Turn: When you place a domino, notice how your circle begins to grow and take shape. Now there's a new picture to match on the end of your circle! Turn a new domino faceup so you again have two dominoes faceup. If either domino matches either picture on the ends of your circle, you may place it (see below).

Double Match: If *both* of the dominoes you turn over match dominoes on the circle, place both of those dominoes and turn over two new ones. Your turn continues.

When Your Turn Ends: Your turn ends when the two dominoes you have turned faceup do not match any dominoes on the circle. Turn the dominoes facedown again. It's the next player's turn.

Players continue to take turns and make matches as the circle grows.

THE WINNER! If you place the final domino and complete the Circle of Life, you win the game!

Now you can recreate Simba's story from cub to king, using the dominoes to help tell it.
