

2 Players

# Lotsa Lotto

## GAME

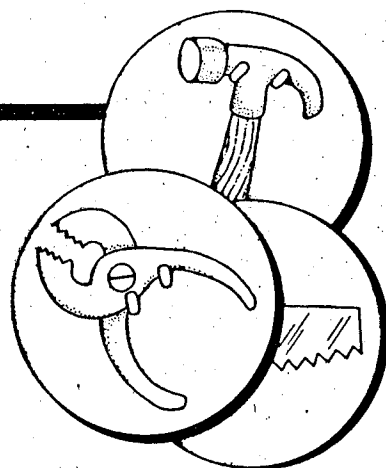

### CONTENTS:

2 double-sided gameboards, 36 picture tokens

### OBJECT:

Be the first player to fill your gameboard with nine matching picture tokens.

### SETUP:

1. Carefully punch out the 36 picture tokens.
2. Place all picture tokens **FACEDOWN** in a central pile within easy reach of both players. Then mix them up.
3. Each player takes a double-sided gameboard and selects one side to play.

### GAME PLAY:

Youngest player goes first. Play then continues with players alternating turns.

On your turn, pick one picture token from the pile and check to see if the picture on the token matches one of the black and white pictures on your gameboard.  
**NOTE:** The tokens match the gameboards by *theme* and by *background color*. (For example, the tokens for Cookie's Bakery are all tasty things to eat and all have a pink and purple background.)

♦ If you have a match, place the token on your gameboard's matching picture. See Figure 1. Your turn is then over.

♦ If you do **NOT** have a match, show the token to the other player. If it matches a picture on that player's gameboard, give the token to that player to put on his or her gameboard. Your turn is then over.

♦ If you do **NOT** have a match and the other player does **NOT** have a match, place the token out of play inside the game box. This ends your turn.

### WINNING THE GAME:

The first player to fill his or her gameboard with nine picture tokens wins!
