HOW TO FILL THE PITCHER AND CUPS WITH PRETEND "ORANGE JUICE"

1. To make pretend "orange juice" appear, place **ice cold water** in the pitcher. Then, pour the **ice water** from the pitcher into the cups. Note: The color-change feature does not affect the water added to the pitcher and cups.

HOW TO SPREAD THE GRAPE-COLORED "JELLY" ONTO THE MUFFINS

2. Fill the jar with **ice cold water**. Then dip the knives inside to spread the grape-colored pretend "jelly" onto the muffin and muffin halves.

HOW TO CLEAN THE PITCHER, CUPS, KNIVES AND MUFFINS

3. Wash the pitcher, cups, knives and muffins with **warm water**, then soak them in **warm water** to rinse them clean. Remember to dry the pieces thoroughly.

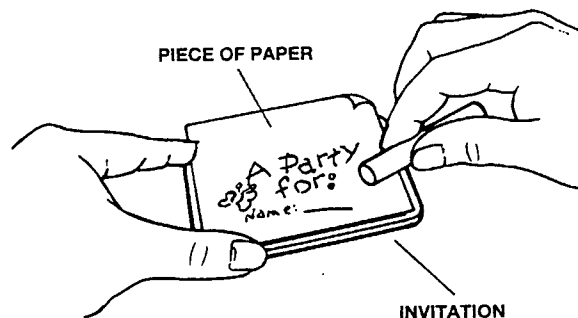

IMPORTANT INFORMATION FOR PARENTS

When the ice water cools the pitcher, cups, knives and muffins to 55°F, they will retain the orange or grape color. To completely remove the "orange juice" and "jelly" from them, immerse them in water that will warm them to 95°F or about the same temperature as warm bath water. Make sure they soak for at least 30 seconds.

HOW TO MAKE PARTY INVITATIONS AND NAME CARDS

4. **INVITATION:** Place the invitation on a flat surface with the design facing up. Place a piece of paper (not included) on top of the invitation. Rub a crayon (not included) across the invitation until the complete design appears on the paper. Fill in the name of the party guest.

NAME CARD: To make a name card, turn invitation to the other side, and follow the above instructions. Fold it on the dotted line, and place it in front of a place setting.
