For 2, 3, or 4 Players

This is a fast action family game which requires skill and develops coordination. It may be played by two players, or one player against two others, or four persons may form teams of two players.

The object of the game is to score as many points as possible by rolling the ball into an opponent's goal.

# Preparation

Place the unit on any flat surface and put the ball in the center of the playing area. The player using the green control tabs attacks the yellow goals and defends the green goals. The player using the yellow control tabs attacks the green goals and defends the yellow goals. Scores may be made at either end of the playing field by guiding the steel ball into your opponent's goal.

Players assume the ready-to-play attitude by placing their fingers on the two control tabs at their end of the playing field.

## To play

At a predetermined signal players cause the ball to roll by increasing or decreasing pressure on the control tabs in order to score, or to defend their own goals.

The player or team which first scores 5 goals is the winner.
