

Paddle Wheel Tub Boat

Thank you for buying this Playskool® product!

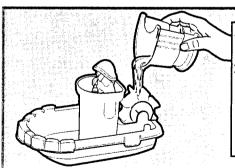

ASSEMBLING TUB BOAT:

1. From above, drop the paddle wheel into its slot in back of boat, and snap the posts on paddle wheel into tabs on boat as shown.

2. The larger cup can be turned upside down and placed into its spot in the front of the boat as shown. The smaller sifting cup fits right on top of the larger cup. The sailor figure can "captain" the boat from his place on top of the smokestack!

SPINNING PADDLE WHEEL:

3. Pour water from the cup into the top of the smokestack or directly onto the paddle wheel to make the wheel spin!
