

Rocks and Rings Set

TREASURE ROCKS™

9031
Ages 4 & Up

Instructions

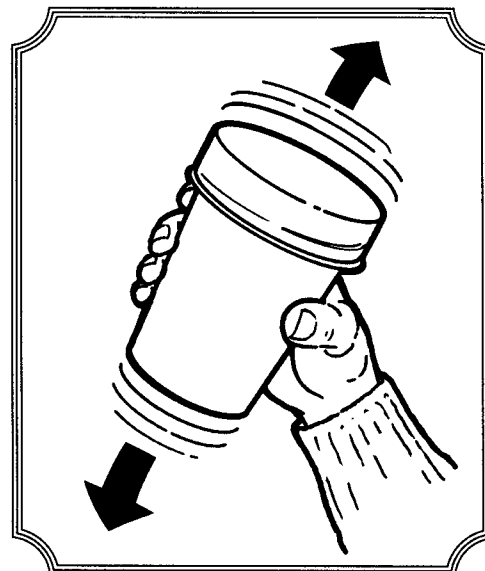

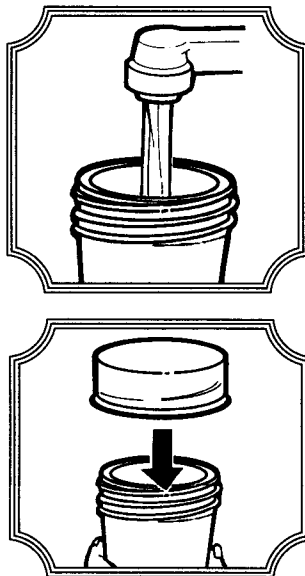

WARNING: CHOKE HAZARD
Contains small parts that may be swallowed or inhaled by children under 4 years of age.

NOTE TO PARENTS

Inside each Treasure Rock is a plastic jewel. The jewel is a small part and represents a choking or inhalation hazard to children under 4 years of age. The coating of each Treasure Rock, which dissolves in water, contains a nontoxic but bad-tasting ingredient designed to make children remove the Rock if they should ever place one in their mouths. To avoid that possibility, keep Treasure Rocks away from children under 4.

Includes: 12 Treasure Rocks and 2 sparkling rings!

TO REVEAL YOUR TREASURE ROCKS:

1. All you need is a plastic container that can be securely sealed. (If you have the Magical Revealers from any of the other Treasure Rocks sets, you may use that as well.) Place your Treasure Rocks into the container. You may reveal all of your Treasure Rocks at once, or one or two at a time. Fill with warm water almost to the top and seal tightly.

2. Shake vigorously for about one minute. The rocks will magically transform into beautiful jewels!

3. Take container to a sink and drain water. Look at the sparkling jewels! (Be careful not to pour them down the drain!) Now the beautiful jewels are ready to be placed in the jewelry settings!

MAKING THE JEWELRY: The Rocks and Rings Set comes with parts to make 2 pretty rings! Fit the jewels into the matching settings and snap in the backings as shown to make beautiful, sparkling rings! The rings can be disassembled and re-made with differently colored jewels. You also have Treasure Rocks left to store away for future use!
