

HOW TO PLAY

Here's just one way to wrap your Tuba-Ruba 'round! As you play, you'll find you can wrap up in other ways, too!

- A** Slip large loop of one wrist/ankle band (near Starting Gate) over your wrist.
 - B** Then wrap tube around your body any way you choose! Or have a friend wrap you up!
- NOTE: If tube is wrapped too tightly, the tube sections may separate during play.*
- C** Slip other wrist/ankle band's large loop (near Goal) around your ankle!
 - D** Attach clamps over any 2 tubes that cross each other or are near each other. Clamps prevent tube from sliding down your body during game play!

- E** Firmly pop the darkest ruba into the Starting Gate with your thumb. (The dark ruba is the easiest to spot as it moves through the tube!)

Then wriggle, twist and turn to maneuver that ruba through the tube to the Goal!

NOTE: Try not to use your hands to move or adjust tube as the ruba rolls through it.

- F** To remove ruba: Shake Goal until ruba falls out the small hole.

The Body Action Game

TUBA-RUBA™

WRAP YOUR TUBA-RUBA ALL AROUND,
SHAKE AND SLIDE THE MARBLE
DOWN, DOWN, DOWN!
1 OR MORE PLAYERS

CONTENTS

SETUP

Figure 1. Connect all 8 tube sections to form one long tube. Push one tube inside the other; push past 3 ridges to lock into place.

Figures 2 and 3. Position one wrist/ankle band at each end of tube. Slip *only* the small band loops over tube. Then attach Starting Gate and Goal to ends of tube.

**OBJECT
OF
THE GAME**

Wrap up in the tube, pop the marble into the Starting Gate and quickly maneuver it to the Goal.

GAME PLAY VARIATIONS

MOVE THE GATE AND THE GOAL!

Wrap the tube so you move the Starting Gate to an ankle and the Goal to a wrist; or put the Gate on one wrist and the Goal on the other wrist; or move the Gate to an ankle and the Goal to the other ankle! Make it as challenging as you want!

RACE AGAINST TIME!

Test your skill against the clock and see how fast you can get that ruba into the Goal! Race against friends and see who is the quickest!

PLAY IN PAIRS!

Wrap two people together —front to front, side to side, or back to back! Hold a Tuba-Ruba party and have your guests join in the fun by telling players where that ruba is in the tube!

NOTE: Players need to move around in various positions throughout game play, so try not to wrap too tightly!

PLAY IN A GROUP!

Connect several Tuba-Ruba games and then wrap everyone up in that one long, long tube! Loop that tube up, down—all around! Then play all at one time in one big group—and try to get that ruba through that tube and into the Goal! (See box bottom.)

PLAY AS TEAMS!

Use two (or more) Tuba-Ruba games for team play. Race teams against each other and the clock. The first team to roll their ruba into the Goal wins!

AS A SOLO CHALLENGE, MAKE A TUBA-RUBA TANGLE!

Don't wrap the tube around your body this time! Just connect all 8 tube sections to form one long tube. Then interweave the tube to create one big tangled-up knot. Place all three rubas into the Starting Gate and try to get the rubas through the tube and into the Goal!

CAUTION: Don't overstretch the tube when pulling on the knot. Ribbing and wall of tube could become damaged.
