
DIRECTIONS FOR PLAYING
THE GAME OF
UNITED STATES
GEOGRAPHY

PARKER BROTHERS, Inc.
Salem, Mass., New York, Chicago, London

- The game may be played with the first or with the last 25 cards (numbers 1 to 25 or 26 to 50) or with the whole set. For small groups, the smaller number is advisable. From 3 to 12 persons may play the game.
- 1. Mix and deal out cards one at a time.

2. Person at the right of dealer asks a question from the upper half of card, giving the number of the question, and then calls on the player on his right for the answer.

3. If the person asked has the answer on a card, he reads it, otherwise he attempts to answer the question. In either case, a successful answer allows him to keep his cards.

4. If he answers incorrectly, he must forfeit one card to the questioner. He then asks a question from his own cards of the player on his right.

5. When the questioner gives the number and reads the question, each player looks at his cards to see whether he holds the answer, and whether it is correctly given by the

player called on. Correct answers must be made known at each play.

6. The person who wins 5 cards wins the game; thus, if 8 cards are originally dealt, the player who first holds 13 cards is the winner.

7. Care must be taken to remember the number of cards first dealt out in order that cards earned can be easily figured up to the additional 5 required to win the game.

8. Cards won are added to the hand and kept in play.

9. Answers when attempted must be substantially complete according to the text.

10. The player who forfeits the last card to the winner, becomes the dealer for the next game.
