

Wee WATERFULS®

INSTRUCTIONS

for

CRABBY CLAWS™
PELICAN POUCH™
POTTAMUS PIT™
NEEDLENOSE™
SUBMARINE CATCH™
FERRIS WHEEL™

For 1 or More Players

THE SET UP

Remove stopper on top and fill your game with water while pushing the button on front over and over again to help eliminate air bubbles.

NOTE: Although you can use tap water, it may contain air bubbles. For best results, we suggest that you use bottled, distilled or tap water that has been boiled (by an adult) and cooled to room temperature.

THE SHAKE DOWN

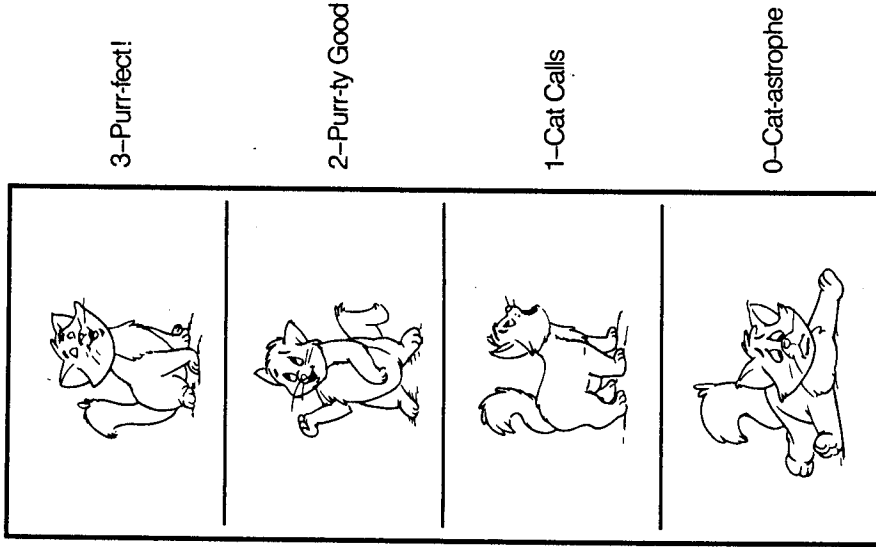

Tilt the game to bring all the balls, rings, or characters to the bottom. Make sure that they don't stick to the top.

WHOOSH!

Push the button on the front and whoosh—the balls, rings, or characters float into action. Tilt the game to control where they go.

WEE WATERFULS® FERRIS WHEEL™ Water Game

Can you fill the Ferris Wheel with floating felines? Push the button six times and see how many cats you can get in the Ferris Wheel cradles.

TRY THIS!

Alternate pushes with an opponent. The first player to get two cats in the Ferris Wheel is the winner.

OR

See who can get all three cats in the cradles in the least number of pushes.
