

World Map

Here is a useful tip before you get started!
For best results, print pattern onto cardstock or glue onto cardboard.

1. Using a color printer, print both of the world map pattern sheets onto 8.5" x 11" paper.

2. Cut along exterior white edges, as indicated, ensuring not to cut one center strip.

3. Apply tape to the remaining white center strip and join both sheets together.

4. Add PLAY-DOH compound to create a more colorful world.
