

Beach Umbrellas

Here is a useful tip before you get started!
For best results, print patterns onto cardstock or glue onto cardboard.

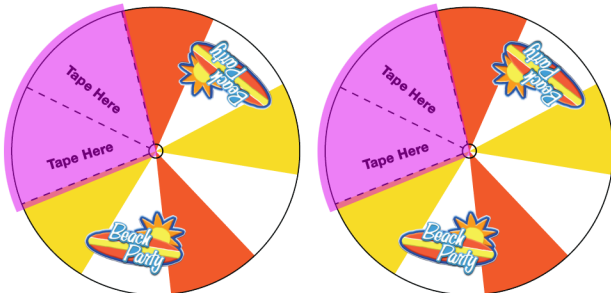

1. Using a color printer, print umbrella pattern sheet onto 8.5" x 11" paper.

2. Cut out umbrella patterns along solid lines. And fold along dotted lines.

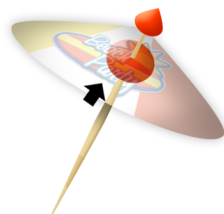

3. Tape the indicated areas together.

4. Take one wooden toothpick and poke through assembled umbrella. Apply a small amount of PLAY-DOH compound to top of umbrella to form a colorful tip.

5. Take and add a second small amount of PLAY-DOH compound underneath the umbrella to secure shade to the toothpick.

6. Form a round base out of PLAY-DOH compound to stick umbrella into. Stick umbrella into ball base, and enjoy the shade!
