## LET'S GET STARTED

### Choosing Teams

1. Have everyone divide up into two teams. It's best to alternate players in a circle so each player is next to a member of the other team. Each player needs to be able to pass the Catch Phrase game unit to a member of the other team as quickly as possible.
2. Pick a team to start (that will be Team 1) and a player on that team to go first. Give the Catch Phrase game unit to that player.

## TO START A NEW GAME

1. Wake the game by pressing the Start/Stop button.
2. Check the display area to make sure the team scores are both set at 0. If they are not, press and hold both the **Team 1 Score** and **Team 2 Score** buttons at the same time to clear the scores.
3. Choose a category by pressing the **Category** button repeatedly to scroll through the various options. You can select from any of the following 7 categories:

<b>Entertainment</b>	<b>Sci-Tech</b>
<b>Food</b>	<b>The World</b>
<b>Places</b>	<b>Everything</b>
<b>Sports &amp; Games</b>	

The default category (and the word displayed on screen when the game is awakened) is “Everything”, which includes, well, everything!

## PLAYING A ROUND

Each game consists of several rounds of play. To begin a round, press the **Start/Stop** button to start the timer. A word from the chosen category will appear on the screen. You can press the **Next** button to show the new word. Now you need to get your team to guess that word by giving them clues. Here's how.

- You can make any physical gesture and give almost any verbal clue to get your team to say the word. But you CANNOT:
- Say a word that RHYMES with the word;
- Give the FIRST LETTER of the word;
- SAY A PART OF THE WORD in the clue (i.e. “shoe” for “shoe horn”).

If the other team catches you committing any of these no-no's you must press the **Stop/Start** button to shut the timer off. The other team automatically gets one point for that round. (See “How to Score Points.”)

As soon as your team has guessed the word, hand the game unit to a member of the other team. Play continues with the new team pressing the **Next** button to reveal the next word. The round ends when the buzzer sounds and the timer runs out.

## SCORING

### How to Score Points

When the buzzer sounds, time is up. The team **NOT** holding the game unit gets 1 point. That team also has one turn to guess the word that the losing team did not get. If they guess correctly, they get 1 BONUS point (scoring a total of 2 points for the round).

### How to Enter Points

You must wait until the timer has run out, or is stopped, before you can enter points. The losing team (the team left holding the game unit when the round ended) awards 1 point to the winning team by pressing either the **Team 1 Score** or **Team 2 Score** button once. If the winning team guesses the word, they score the BONUS point by pressing the **Team 1 Score** or **Team 2 Score** button one more time.

*Note: If you accidentally enter more points than you should have, press and hold both the **Team 1 Score** and **Team 2 Score** buttons to clear the score, and following the scoring procedure, re-enter the correct scores. You can then resume the game where you left off.*

## STARTING A NEW ROUND

After you have scored the points for the round just played, the team holding the Catch Phrase game unit begins the next round by pressing the button.

## WINNING

The first team to reach 7 points wins. The game will play a snappy little tune and display the winning team when the final point is assigned!

If you want to continue to play, press and hold the Start/Stop button and the scores will reset to 0.
