THE FIRST TIME YOU PLAY
Remove the cardboard strips on either side of train tracks as shown.

SETUP
Refer to the image below to set up the game.
Place the die in the pocket under the train. The train can start anywhere and go in either direction.

EASY GAME

OBJECT
Be the first player to collect a candy token from each train station (one of each color).

LET’S PLAY!
Youngest player goes first. Play then passes to the left.

On your turn:
1. Push the train around the track and stop on any space that matches a color token you want to collect.
2. Pick up the train to see if the color on the die matches the station you’re visiting.
   • If you rolled a matching color or the rainbow, collect a token!
   • If you didn’t roll a match, place the train back over the die.
   This ends your turn.

DID YOU WIN?
If you’re the first player to collect a candy token from each station, you’re the winner!

ADVANCED GAME

OBJECT
Collect the highest number of candies shown on your tokens.

LET’S PLAY!
Play the same as the easy game with these exceptions:
1. When you collect a candy token, look at the number of candy pieces on the token. You want to choose a token with more candy pieces on it.
2. Play until all the candy tokens have been collected.
3. You do not need to collect a candy token from each color station.

DID YOU WIN?
Count the number of candies on your tokens. If you have the most, you win!
