**GAME 2: SCRABBLE FIVE-LETTER FLASH**

**For One Player**

**Object:** Score as many points as you can by finding a 5-letter word for each letter mix.

Each tile will display one letter; then the countdown begins! Quickly form one 5-letter word that uses those letters. If you're successful, the tiles will display 5 new letters. Keep playing until time runs out before you can form a 5-letter word. The game will end, and the tiles will display a 5-letter word that could have been formed with those letters.

**Scoring:** Each 5-letter word you successfully form scores one point. When time runs out, your score (SCR) will display. The 1-2-3 Menu will then display, and you may choose any game on the menu.
Each tile displays one letter. The first player has a short time to form a one 5-letter word that uses these letters.

If the player is successful, the tiles will display "N-E-X-T." The player passes the tiles to the player on the left, who presses any button to receive 5 new letters, and quickly tries to form a 5-letter word.

If any player is unsuccessful, the tiles display "0-U-T," then the word the player missed, then "N-E-X-T." That player is out of the game, and passes the tiles to the left.

As the game continues, the time limit for each turn decreases. Players drop out one by one, and the last player in the game wins! The 1-2-3 Menu will then display (alternating with "N-E-X-T"), and you may choose any game on the menu.
