WINNING THE GAME

The game ends as soon as either:
- The cash machine runs out.
- OR
- One player doesn’t have enough money to pay for something. They have gone bankrupt!
- If you’re bankrupt, give any money you do have to the person you owe it to. This could be the bank, too.
- Count up all your cash. The player with the most money wins!

RULES FOR OLDER PLAYERS

If everyone agrees, you can swap properties with each other during the game.

Make a deal! Swap properties for cash or for other properties. Use your swaps to get pairs of properties of the same color and earn double rent!

Ending the Game

The game ends as normal, with one player going bankrupt or the cash machine running out of notes.

1. Count up all your cash.
2. Add up your property total. Each property is worth the amount another player would pay you if they landed there.
3. Add the two numbers together.
4. The person with the highest total is the winner.

Even if you have no cash left, you could still win!

CAUTION:

Always follow the instructions carefully. Use only batteries specified and be sure to insert them correctly by matching the + and – polarity markings.

IMPORTANT BATTERY INFORMATION

Please retain this information for future reference. Batteries should be replaced by an adult.

BATTERIES REQUIRED

This game uses 3 x AA batteries. Batteries are not included.

RECHARGEABLE BATTERIES:

Do not mix these with any other types of batteries. Always remove from the product before recharging. Do not recharge other types of batteries.

FCC Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Move the equipment away from the receiver.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
**Setup**

1. Put the board in the middle where everyone can reach it.
2. Put the cash machine and 1 bank card nearby.
3. Put the houses and hotels next to the board.
4. Give each player:
   - 4 x M1s
   - 2 x M2s
   - 1 x M5

5. Shuffle 45 M1s, 10 M2s and 5 M5s with all the Chance cards. **Make sure the pile is well shuffled!** Put the pile inside the cash machine as shown. The rest of the money goes in the bank.
6. Choose one player to be the banker. The banker is in charge of the bank's money and the property cards. Banker, keep the bank's money separate from yours!
7. All choose a mover and place it on the GO space.
8. Roll the die. The highest roller goes first.

**How to Play**

**On Your Turn**

1. Roll the die and move your mover that many spaces around the track, in the direction of the arrow.
   - If you land on an owned property, pay rent and get a free house.
   - If you land on the cash machine, put the card in the machine and see what comes out!
   - See THE SPACES for what to do when you land on each space.
2. Swap a house for a hotel, if you want to. As soon as you've been round the board once, you can buy hotels. See HOUSES AND HOTELS to find out what to do.
3. Your turn is over. Pass the die to the player on your left. Keep taking turns until the cash machine runs out of notes (cash or Chance cards) OR someone runs out of cash and can't pay what they owe, then turn to WINNING THE GAME on the back page.

**The Spaces**

**Unowned property space**

You must buy the property, if you have enough money.
- Give the money to the banker.
- Look at the card to see how much.
- Put the matching property card faceup in front of you.
- Pick a house to put on that property on the board. Just one house per property.

**Owned property space**

Pay rent to the player who owns the property. Look at the property card to see how much.
- If anyone lands on your property, shout “rent!” to remind them to pay.

**You snooze, you lose!**

If the next player rolls before you ask for rent, you missed your chance!

**Got any pairs?**

If you own two properties that are the same color (e.g. Shark Lane and Goldfish Way) you can charge double rent if someone lands on them!

**Roll again**

Roll the die and move your mover that many spaces.

**Go to Jail**

Move to the IN JAIL square. Do you have a Get out Jail Free card?
- No. End your turn. On your next turn, pay a M2 fine to the bank, then roll and move as normal.
- Yes. Put the Get out of Jail Free card on the pile of used Chance cards. Move your mover to Just Visiting. On your next turn, roll and move as normal.

**Just Visiting**

If you land here, don’t do anything. Give your friends a wave if any of them are in jail.

**Free Parking**

If you land here, don’t do anything — chill out.

**Go**

Collect M2 from the bank every time you pass GO!

**Cash Machine**

- Put the bank card into the hole in the front of the cash machine.
- The machine will throw out 4 notes — they could be cash or Chance cards.
- Take the bank card out of the machine.

**What Did You Get?**

Money

Put any cash that you get with the rest of your money.

**Chance cards**

- If you got a Chance card, do what it says, e.g. “Go to Drum Road.”
- If you got more than one, pick only the best one to do. Put the others on the used card pile.
- Some Chance cards give you two choices on the same card. Pick one and do it.
- If you're acting, go crazy! Make sound effects, stand up and use your whole body!

Once you've used a Chance card, put it on the used card pile.

**When the machine runs out of notes, the game is over.**

**Houses and Hotels**

Every time you buy a property, you get a house for free.

Once you have been all the way around the board, you can pay to swap the house on any of your properties for a hotel. Other players will have to pay you extra rent if they land there.

- Take the house off the property and swap it for a hotel. Pay the bank M1.
- You can only build one hotel per turn.
- Be quick! There are only 8 hotels in the game.
