**STARTUP GUIDE**

**WHAT’S DIFFERENT ABOUT MONOPOLY LIVE?**

MONOPOLY LIVE has a sliding, motion-sensing tower that guides you through the game. A graphic design in this tower acts as a ‘night’ reflective material on the game pieces, track cards, cab, and YES/NO icon.

You won’t need to read any rules to play this game, but you can check them out anytime at www.monopoly.com

**ASSEMBLING YOUR GAME**

It’s easy! Just follow the two steps below. As you assemble your game, refer to the same setup photos on the left.

**Step 1)** Before assembling your game, insert four AA-size batteries into the tower as described in the battery compartment on the underside of the tower.

**Step 2)** Insert the pieces into the gameboard. Look for a red dot on the back of the pieces. This indicates where the piece will seat. Remember to seat the pieces correctly by matching the + and – polarity markings.

**ATTACH THE TRACK AND CAB TO THE GAMEBOARD.**

To the tower, then press flat onto board. Fit track halves together, then press flat onto board.

**TOWER CONTROLS**

Turn to increase or decrease volume.

**BATTERY INFORMATION**

- **Rechargeable Batteries:** Do not mix these with any other types of batteries. Always remove batteries if product is not to be played with for a long time.
- **Do not short-circuit the supply terminals.**
- **Do not expose the batteries to fire or heat.**
- **Keep the dark lens on the tower clean and free from scratches and other damage.**
- **Do not throw the batteries in the household waste bin.**
- **Note:** Always follow the manufacturer’s advice and never mix different types of batteries.

**CAUTION:**

- **Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.**
- **Consult the dealer or an experienced radio/TV technician for help.**
- **Increase the separation between the equipment and receiver.**
- **Reorient or relocate the receiving antenna.**
- **Turn off and on, the user is encouraged to try to correct the interference by one or more of the following: **
- **Move the receiving antenna’s location.**
- **Increase the distance between the equipment and receiver.**
- **Plug the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- **Consult the dealer or an experienced radio/TV technician for help.**

**GAMEPLAY BASICS**

Here’s all you need to know to communicate with the tower, manage your cash and take the cab for a ride.
