## 82nd Airborne Paratrooper

### How to Use Parachute:

1. Allow figure to rotate to untwist strings.

2. Starting at one end, gather each section of parachute together, one section at a time. Fold gathered parachute in half.

3. Hold parachute against figure's back with strings facing up. Bend figure's knees and raise figure's arms above his head. Throw at approximately a 45° angle to the ground to a height of 15'.
