Welcome to the world of Poo-Chi's...102 Dalmatians Poo-Chi's that is! This precious pooch is styled just like your favorite character from the exciting movie, 102 Dalmatians. Whether you chose Domino, Oddball or Little Dipper, your 102 Dalmatians Poo-Chi expresses his emotions through bright expressive eyes, flapping ears and a wagging tail. Enjoy hours of playful singing, dancing and real puppy sounds. Your 102 Dalmatians Poo-Chi uses advanced technology to create realistic emotional responses that change as you play with him. The more you play with your 102 Dalmatians Poo-Chi, the happier he becomes - he may even sing his extra special song (Oh Where, Oh Where Has My Little Dog Gone) just for you!

CHECKLIST
The following items are included in this package:
1. 102 Dalmatians Poo-Chi
2. Poo-Chi Bone
3. Instruction manual
If anything is missing, please contact the Tiger Electronics Customer Service department and they will send you any missing item.

BATTERY INSTALLATION
IMPORTANT: Battery installation should be done by an adult. Always install the batteries correctly according to the positive (+) and negative (-) signs on the batteries.
1. Unscrew and remove the battery compartment door on the back of Poo-Chi's head.
2. Insert 3 AAA/LR03 batteries as shown inside the battery compartment.
3. Attach the battery compartment door and fasten the screw.
4. Press the RESET button located inside Poo-Chi's mouth (see RESET section for more details).

NOTE: 102 Dalmatians Poo-Chi will begin to move as soon as you install the batteries. There is no on/off switch. To turn off, either remove the batteries or see the section titled "SLEEP".

HELPFUL TIP: Poo-Chi is a mechanical, robotic toy. The mechanical sound you hear during movement is normal.

To ensure proper function:
- Do not mix old and new batteries.
- Do not mix alkaline, standard or rechargeable batteries.
- Battery installation should be done by an adult.
- Non-rechargeable batteries are to be removed from the toy before being charged (if removable).
- Rechargeable batteries are only to be charged under adult supervision.
- Replace batteries at the first sign of erratic operation.

CAUTION:
- As with all small batteries, the batteries used with this toy should be kept away from small children who still put things in their mouths. If they are swallowed, promptly see a doctor and have the doctor phone (202) 625-3333 collect.
- Make sure the batteries are inserted correctly and follow the toy and battery manufacturer's instructions.

POO-CHI'S SENSORS
102 Dalmatians Poo-Chi is very unpredictable. Activate one of his sensors to see what he will do! Poo-Chi has three sensors: a light sensor, sound sensor and a touch sensor.

To activate the LIGHT sensor:
- WAIT until Poo-Chi stops moving.
- Slowly pass your hand in front of Poo-Chi's nose.
- When you move your hand away from Poo-Chi's nose, Poo-Chi will respond.

To activate the SOUND sensor:
- Simply clap your hands or make a loud sound. Poo-Chi will respond.

To activate the TOUCH sensor:
- Press the button on top of Poo-Chi's head.
- WAIT until Poo-Chi stops moving.
- Press the button on top of Poo-Chi's head.
- If you press the head button once, Poo-Chi will respond. If you press it twice, Poo-Chi will respond. Press the head button up to six times quickly to see what Poo-Chi will do. Poo-Chi loves to play and be happy.

POO-CHI'S EYES
Poo-Chi's eyes are very expressive. Poo-Chi's eyes will tell you if he is happy, sad, sleepy, and that he loves you! Poo-Chi can even blink!

POO-CHI'S BIORHYTHM
Graphs shown below represent the 8 biorhythm levels of 102 Dalmatians Poo-Chi. Each level lasts about 30 minutes and determines Poo-Chi's feelings and behavior. For example, when Poo-Chi is in level 1 he will be unhappy most of the time, and will probably have sad eyes. In level 8 Poo-Chi will be happy almost all of the time, and will sing you special songs!

Remember: If 102 Dalmatians Poo-Chi is sad, it's very easy to make him happy again by playing with him. Don't forget, Poo-Chi has three different sensors that need attention! (Refer to Poo-Chi's Sensors section).

Level 1: Poo-Chi is most unhappy and needs much care and affection.

Level 2: Poo-Chi is still sad, maybe feeding Poo-Chi his bone will help!

Level 3: Remember to watch Poo-Chi's eyes, they tell you how he feels.

Level 4: Getting happier, Poo-Chi loves to be petted!

Level 5: Poo-Chi hears when you clap or say "Good Dog!"

Level 6 (Home position): Poo-Chi starts at this level when reset.

Level 7: Poo-Chi's very happy, he might even sing you a special song!

Level 8: Congratulations on being a World Class Poo-Chi Owner, watch for his special trick!

POO-CHI'S BONE

102 Dalmatians Poo-Chi loves to be cared for and the more you take care of Poo-Chi, the happier he will be. Feed Poo-Chi by holding the middle of the bone in front of Poo-Chi's mouth. Poo-Chi will respond with happy noises, wagging tail and a special eating sound.
- Do not place the bone inside of Poo-Chi's mouth or else Poo-Chi's bone will simulate feeding.
- Poo-Chi's bone does NOT require batteries.
- Do not attempt to remove.
Avoid placing the bone close to any magnetic-sensitive object like a cassette tape, video tape, magnetic disk, credit card, etc.

WARNING: Poo-Chi's bone is a toy.
Bone is not intended for use by a live dog.

POO-CHI'S EARS

Poo-Chi's ears are designed to be re-attached should they become detached. Sometimes during shipping or while you are playing with Poo-Chi, one of his ears may come off. If this happens, simply re-attach the ear by aligning both notches on the ear and hinge.
